PROPOSALS
FOR PUBLISHING BY SUBSCRIPTION,

A MAP OF VIRGINIA,

Formed from actual Surveys, and the lateſt as well as moſt accurate obſervations.

BY JAMES MADISON, D. D.
Preſident of William & Mary College.

To which will be added
A MAP
Of the greater part of the ſtate of OHIO, from actual ſurveys, including the whole of the Virginia Military tract; with all that part of the ſtate weſt of the Ohio river, to the Indian boundary line

The North-eaſt corner of the map will be ornamented with an intereſting VIEW OF THE CITY OF RICHMOND.

The ſize of the Map will be 5 feet 6 inches in length, and 3 feet 8 inches in breadth. An ingenious and ſkilful engraver is engaged to execute the work, in a ſtyle not inferior to any ſimilar work in the United States.

CONDITIONS.

The price to ſubſcribers will be eight dollars, neatly mounted, colored, and glazed. One dollar, (to lighten the great expence of publication) to be paid on ſubſcribing.

To non ſubſcribers, the price will be ten dollars.

Copy right ſecured.

IN offering the above work to the public, the proprietors are ſenſible that excellence is not often attainable; but with candor and truth, equally remote, from arogance and partiality, they can ſay, that they conſcientiouſly believe it has a juſt claim to the confidence and patronage of the people.

A map of Virginia has been long and anxiouſly looked for: None has been publiſhed, on the plan of the one now offered, for many years

The labor, expence, and apparent difficulties, in accompliſhing ſo intereſting a work, have deterred ſeveral from the arduous undertaking. The proprietors, finding that moſt of the other ſtates had recently given encouragement to ſimilar productions, and entertaining a high ſenſe of the real dignity and importance of Virginia, embarked in the buſineſs, from a well grounded belief, that the magnitude and utility of the work, would inſure, if accompliſhed, a remuneration. And while Virginia is powerfully ſtimulated with the love of ſcience and virtue, they hope and believe ſhe will view domeſtic productions, which prove pre-eminently uſeful, with a generous pride

Thoſe gentlemen who take ſubſcription papers are requeſted to return them to the ſubſcriber, in Peterſburg, by the firſt day of May.

The maps will be ready for ſubſcribers, in the courſe of the enſuing ſummer.

WILLIAM PRENTIS.

To THE PUBLIC.

DURING the preſent year, J. Ogilvie will continue to inſtruct youth in the city of Richmond. In addition to the various branches of literature and ſcience heretofore taught in his ſchool, his pupils will have an opportunity of ſtudying the higher branches of mathematical ſcience, a more extenſive courſe of natural philoſophy, the dead languages, and the French and Spaniſh languages. In teaching the higher branches of Mathematical ſcience and the dead languages, J. Ogilvie will be aſſiſted by Mr. Wood of this city, whoſe ſuperior proficiency and ſkill in Mathematical and Phyſical ſcience eminently entitle him to public patronage. The French and Spaniſh languages will be taught by Mr. Bonnadil, with whoſe aſſiduity and qualifications in the line of his profeſſion, the citizens of Richmond are ſufficiently acquainted. Theſe arrangements, whilſt they will conſiderably diminiſh J. Ogilvie's emoluments, will greatly enlarge the utility of the ſchool. The principal diſadvantages of ſchools conducted by a ſingle teacher, are, the principal and uninterrupted preſſure of exertion, the diſſipation of thought amongſt ſuch a variety of ſtudies as almoſt to preclude the poſſibility of pre-eminent ſkill or proficiency in any one department of knowledge, and the conſequent imperfection and incompleatneſs of the courſe. Theſe diſadvantages will be radically obviated by the preceding arrangements. Thus modified and extended, the plan of education which will be purſued in this ſchool, will embrace probably, as comprehenſive and compleat a courſe of literature and ſcience as can be reaſonably expected in a ſeminary, ſo totally deſtitute of every ſort of extrinſic ſupport. The ſchool will be opened on the ſecond Monday in January.

P. S. Mr. Wood will teach the arts of drawing and painting, to ſuch young gentlemen as may be deſirous to acquire ſome knowledge and ſkill in theſe highly elegant and uſeful accompliſhments.
