DOOMED
On city streets leather heels are obsolete as sandals—O'Sullivan's Heels absorb the shocks that tire you out.

"Not a trace of perspiration stain or odor on it!"

WEAR a silk or serge dress for weeks and weeks and still not have the slightest perspiration stain on it! Or a trace of perspiration odor! Even through these hurrying war-work days! It's not impossible at all! It's so easy; gives such a new daintiness—you will never spoil a dress with perspiration again. And you need wear no protection for it either!

For excessive perspiration under the arms, on your hands, feet, or forehead is unnatural—not healthy. It should come out evenly over the body. Odorono is a physician's formula to correct excessive perspiration; it keeps the underarms absolutely clean and fresh—your feet cool and comfortable.

Use Odorono tonight

Begin tonight to save your dresses—to have the sensation of a new daintiness—sweetness. Odorono is so quick to use, the directions are so simple, that you are amazed at its magic help. You pat it on your troubled skin—it dries—you use a bit of cold cream, and are careful not to rub the skin. And—this one application will keep your underarms absolutely dry and odorless for days! Or your feet, or hands, or forehead. Use it two or three times a week and perspiration troubles are gone. Daily baths do not interfere at all.

At all toilet counters in the United States and Canada, 50 cents and $1.00. Trial size 30 cents. By mail, postpaid, if your dealer hasn't it. Address The Odorono Co., 1007 Blair Avenue, Cincinnati, Ohio.

Write for our booklet, "The Appealing Charm of Daintiness"—to know more about perspiration and how to relieve it. Suggest to the men in your family that they write for "The Assurance of Perfect Grooming."

Dr. Allyn endorses Odorono

"We do not believe that any harm can come from stopping the excretion of perspiration in limited areas, such as, under the arms, feet, forehead, etc.

"Experimental and practical tests show that Odorono is harmless, economical and effective when employed as directed, and will injure neither the skin nor the health."

LEWIS B. ALLYN, Westfield, Mass.

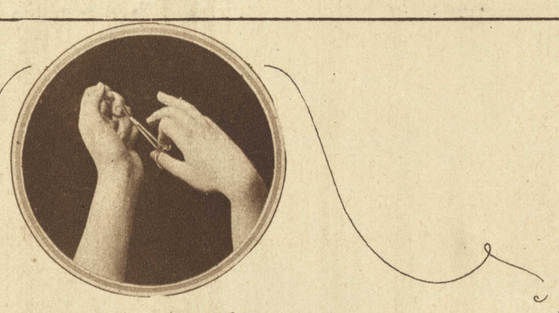
The toilet water for excessive perspiration



Read how to overcome the unattractive appearance that cuticle cutting gives your nails

What causes Hangnails

Hangnails have two causes.

If the cuticle is allowed to grow up onto the surface of the nail, the skin will tear, become detached and form hangnails. Hangnails also come from improper or too vigorous treatment of the cuticle.

To prevent hangnails, your whole effort should be to keep the cuticle *unbroken*. This is exactly what Cutex does.

Be entirely free from this annoyance

In the Cutex package you will find absorbent cotton and an orange stick. Wrap some of the cotton around the end of the stick and dip it into the Cutex bottle. Work the stick around the base of the nail, gently pushing back the cuticle.

Almost at once you will be able to wipe away the dead surplus skin. Then rinse the fingers in clear water.

When you see how smooth and firm Cutex keeps your cuticle, you will never go back to the old cuticle-cutting method!

Cutex quickly removes overgrown cuticle, does away with hangnails and dry rough skin.

Cutex, the cuticle remover, comes in 30c, 60c and $1.25 bottles. Cutex Nail White is 30c. Cutex Nail Polish in cake, paste, powder, liquid or stick form is 30c. Cutex Cuticle Comfort for sore or tender cuticle is also 30c. If your favorite store hasn't it, order direct.
