INVENTORY OF PHOTOGRAMMETRIC IMAGES

The glass photogrammetric plates listed below are not reproducible except with special permission. However, reference prints and film copy negatives have been made from the plates indicated by an asterisk (*) and are included in the Library of Congress collection of formal HABS/HAER photographs.

28 6.5 x 9 cm. glass plate negatives (14 stereopairs) produced by Dennett, Muessig and Associates, Ltd in 1981.

15 Survey control contact prints (one per pair plus one extra)

1 Survey control data folder of 4 pages plus 2 page addendum.

LC-HABS-GS11-D-1981-N1L	NORTH ELEVATION, LEVEL 1 (Survey control contact print)
LC-HABS-GS11-D-1981-N1R *	NORTH ELEVATION, LEVEL 1 Left and right overlap: 85%
LC-HABS-GS11-D-1981-N2L	NORTH ELEVATION, LEVEL 2

LC-HABS-GS11-D-1981-W7R	WEST ELEVATION, LEVEL 6 Left and right overlap: 90%

PROJECT INFORMATION STATEMENT

Photogrammetric images were incorporated into the HABS/HAER collections in the summers of 1985 and 1986. Inventories of the images were compiled and filed as data pages for each structure recorded. Since the glass photogrammetric plates are not reproducible except with special permission, a reference print

and film copy negative were made from one plate of each stereopair and from the most informative plates in sequential sets. The reference prints and copy negatives were then incorporated into the formal HABS/HAER photograph collections.

The Photogrammetric Images Project was a cooperative endeavor between the HABS/HAER Division of the National Park Service and the Prints and Photographs Division of the Library of Congress. The reference prints and film copy negatives of the original plates were made by the Library of Congress Photoduplication Service with funds provided by the Library of Congress Flat Film Preservation Fund. Additional reproductions were made by HABS/HAER. The project was supervised by HABS/HAER Architect John A. Burns, AIA, and completed by HABS Historians Jeanne C. Lawrence (University of London) in 1985 and Caroline R. Alderson (Columbia University) in 1986.
