GEORGE TOWN

COLLEGE,

In the district of Columbia, United States of America, under the direction of the Incorporated Catholic Clergy of the state of Maryland.

I. The annual pension of this establishment is two hundred and twenty dollars; but for children under twelve years of age, only two hundred dollars will be required. Those students who continue their education through the classes of Philosophy shall, on account of extraordinary expenses and some particular indulgencies allowed them, pay two hundred and fifty dollars per annum.

The pension is to be paid half yearly in advance. A deduction of fifty dollars per annum will be allowed to those parents who may choose to charge themselves with the detail of clothing their children. The college will furnish washing and mending; but will not keep particular accounts, or become answerable for clothing provided by parents.

II. In lieu of bed linen, table service, school books, and other articles usually required on entering establishments of this kind, each student shall pay ten dollars entrance money.

III. The Sunday or holiday dress is uniform, and consists of a plain coat of blue cloth, with yellow buttons, red cloth or kerseymere waistcoats. The use of silk is not permitted—Every student shall bring with him his uniform dress, besides a suit for daily wear, six shirts, six neck handkerchiefs, six pocket handkerchiefs, six pair of stockings, and three pair of shoes, all new. Any deficiency in the above will be charged to the parents.

IV. On the above terms the students are furnished with clothes, linen, washing, mending, lodging, board, fire, candle, table, school books, pen, ink, paper, amusements, and school rewards; so that nothing will remain to the charge of the parents, but medical attendance and medicines, postage, and such extra lessons of drawing, dancing, music, &c. which they may choose to order for their children.

V. The religion, uniformly practiced by the students living in the college, is the Roman Catholic; but for students of other religious persuasions, there are boarding houses, convenient to the college, where they will be subject to the same rules (religion excepted) and enjoy the same advantages for their improvement in science as the pensioners of the college.

VI. The Boarders must be furnished by their parents with the uniform of the college, and pay annually for tuition, fire, candle, school books, pen, ink, paper, amusements school rewards, &c. fifty dollars, always half yearly in advance.

VII. The students are taught English, Latin, Greek and all the branches of Classical Education, sacred and profane History, Geography, the use of the Globes, Arithmetic, and when sufficiently advanced Algebra and Geometry, with all the other parts of the Mathematics, in the respective classes. Particular care is taken that they learn to read well, and write a good hand, and that they speak and write French with accuracy. Four times a year the students are called to a public examination of what they have been taught before Parents and the Friends of Literature. Those who have made extraordinary progress are honored and rewarded. The idle, for punishment, are confined in the vacation to certain extraordinary hours of study during play time, in order to repair what they have neglected to learn in schools; therefore, if they are found defective in the last and most important examination of the year, before the August vacation, they will not be allowed to go home during that time.

VIII. The age of admission is from eight to fourteen. When children are not sufficiently advanced to begin a regular course of classical education, they are placed in an elementary class, attended by a particular teacher, from whom they learn to spell, read, and write.

IX. If the children sent to this College have been before at any other house of education, an attestation of their morals and docility is required.

X. The greatest care is taken to instruct the children in the duties of Religion and Morality, and they are constantly under the eye of one or more of the Professors, who see that those duties are practised, and that the rules of civility are not violated.

XI. Cleanliness and exercise, and every thing which contributes to health, are attended to with particular care.

XII. All the pensioners dine and sup with their professors, and have the same table which they have. No distinctions are allowed in diet or clothing.

XIII. As long experience has convinced the directors, that a profusion of pocket money is very prejudicial not only to good order, but even to study and application, they therefore request that parents will not be forward in indulging their children in more than fifty cents at most per month, for this purpose.

XIV. No allowance is made for absence during the vacation, which begins on the 15th August and ends the 15th of September. To these terms the parents are desired to be particularly attentive. In case they choose to call their children home, as the absence of a few weeks at the opening of schools is seldom repaired without very great difficulty. Absence from schools at no other time will be permitted. It is indeed the most serious and earnest desire of the Directors, that the children should never be called home during the course of their education, as they have found by experience that such avocations have often proved prejudicial, not only to study and application but even to content and happiness. Those children who may be received into the college upon other terms, either totally or partially than those provided by their parents or guardians, will not be allowed to go home or absent themselves from the college during the full course of their education, unless particular circumstances in the judgment of the President should require permission of absence for a time.

XV. When children are removed from the College whatever new linen or clothes are furnished them on that occasion, will be charged to their parents. After entering on a new quarter no deduction will be made for the remaining part thereof.

The College is a large building, capable of lodging two hundred persons conveniently.—The garden and court adjoining, where the young gentlemen play, are very airy and spacious. The situation is very pleasant and healthy.

It will contribute much to the advantage of the children, if parents on sending them will inform the President how long they propose to leave them at the College, and for what employments in life they are designed. The regular course of education is properly classical; but such as are destined for the commercial line, have a lesson of Arithmetic and Book-Keeping, under a particular Professor appointed for that purpose.

N. B. The above Regulations and Conditions will take place from the 15th day of August, 1804, for all such as enter at, or after that period; but, for others, they will only commence at the expiration of the six months, for which the advance payment had become due prior to that term.

Right Rev. LEONARD NEALE,
President.

N. B. Prizes subject to a deduction of 15 per cent.

This lottery has been authorised by the legislature of Virginia, for the laudable purposes of erecting a seminary of learning in or near the metropolis of this state. With this view, it is contemplated to raise 20,000 dolls. and 2,500 dolls. in addition, for defraying the expences attendant on drawing the lottery. Citizens of the first respectability have been selected as trustees, and they have pledged themselves to use their utmost exertions to carry it into effect. The scheme has the advantage of giving to each adventurer, a chance for some very large prizes, whilst the proportion of prizes to blanks, is so great as to invite the friends of the intended institution to partake in the lottery, with very little risque of their becoming losers. The treasurer of the state is to be appointed to receive the money for the tickets as they are sold, and to pay the amount of the prizes to the fortunate adventurers. It is believed that the above considerations will induce a rapid sale of tickets, and the drawing will commence as soon as a sufficient number shall be sold to authorise it—which it is believed will be on the second Monday in December next.

Travellers Hall.

THE subscriber has lately been induced from the rapid increase of his custom to purchase a lot of ground adjoining that on which he lives for the purpose of building a dining room and assembly room, each 54 feet by 32 feet 10 inches with six additional lodging rooms, and intends to finish them before the ensuing winter; which together with his tavern and house will occupy a front of near one hundred feet in the most agreeable part of the town and in the center of business being on the highest part of the public square.
