IRON WORKS
FOR SALE.

IN Wythe county state of Virginia, on Cripple Creek about 15 miles from the Great Kanhawa and 40 miles from the north fork of Holfton which affords a tolerable fafe navigation to a prodigious fcope of the western country, where perhaps iron is in greater demand than any other quarter of the United States.

Cripple Creek affords a fufficiency of water for both forge and furnace, being fed by bold never failing fprings. The furnace and all the buildings have been commenced within 4 or 5 years—they confist of dwelling houfes, kitchens, and a store houfe; alfo, a large and convenient stable—the forge has not long been completed. It is fuppofed to be the best built forge in Virginia, being out of choice timber felled at proper feafons and executed by a first rate forge carpenter from Pennfylvania. It works three fires and two hammers, is fixty feet long and fifty wide, well covered with joint shingles. There are between 7 and 800 acres of land attached to thefe works, fome of it of excellent foil, and any quantity may be procured within 6 or 8 miles for from 1 to 8 dollars per acre.—The ore banks appear to be inexhaustible, lying within one mile of the furnace and good roads. From one of the banks the ore may be conveyed by water within 10 steps of the furnace, with the inconfiderable expence of 40 or 50 dollars.

The quality of the iron is acknowledged by thofe who have ufed it to be equal to any. It is particularly fought for by lock makers, faddle tree platers, cutlers, &c.

The demand for iron in that country is far beyond what is made, and is felling from 40 to 50l. per ton. I have no hefitation to fay, contracts on not a very long credit can be had for almost any quantity yearly, as from that quarter a confiderable portion of the western country is fupplied,

As it is fuppofed a purchafe of this magnitude would not be made, without a view of the property by thofe inclined to purchafe, it is deemed unneceffary to give a further defcription.

Letters addreffed to me at Abington, Virginia, will be duly attended to.

I will also sell my

SALT WORKS

I have adjoining to it between 5 and 6 000 acres of land well covered with timber, a confiderable proportion of which in point of fertility is equal to any land whatever, and will afford 3 or 400 acres of meadow, nearly 100 being now in good timothy. The buildings which are extenfive are in a good state of prefervation.
