New York, May 26.

By the brig Panther, arrived yeſterday from Jamaica, we have received Kingſton papers to the 2d inſt. from which ſome extracts have been made, principally in the marine department. We learn, that a few days before the Panther failed, Admiral Dacres, with ſix ſail of the line, had proceeded in queſt of the French ſquadron. The Reynard ſloop of war had juſt returned from a cruiſe, in which ſhe fell in with a French privateer, [late the Lilly ſloop of war,] and after a ſharp action ſunk her. The Reynard had ten men wounded. It does not ſeem from theſe papers that any other French ſquadron had appeared in the Weſt Indies; of courſe the report of ſuch an event was unfounded.

By the ſhip Hardware, capt. Matlack, in 39 days from Liverpool, the editors of the New York Gazette have received London papers to the 13th of April. The moſt prominent article is that of the reſignation of Lord Melleville as Treaſurer of the Navy, on account of being charged by the Houſe of Commons of having made an improper uſe of the public money.

The ſecret expedition had not yet failed.

George Hammaker, Eſq. and brother, whom we are informed is appointed by the king of Denmark, conſul for the Eaſtern ſtates, came paſſengers in the ſhip Lydia, capt. Philadelphia, May 27

We underſtand that a letter has been received by a reſpectable merchant in this city, from his correſpondent in Kingſton, Jamaica, which ſtates, that on the 22d April, the governor had informed a deputation of the merchants that he was determined to enforce the prohibition againſt the admiſſion of American veſſels. But a packet arriving from England on the 29th, it was announced that the ports of that Iſland would be opened to the veſſels of the United States, as heretofore.

Extract of a letter from Bordeaux, dated April 4, 1805.

"A new law has appeared under the date of the 30th Ventoſe, (21ſt March) authoriſing the ſeizure and confiſcation of all colonial produce imported in foreign ſhips, which ſhall not be accompanied with certificates of the French commercial agent, certifying that it is not the production of any colony or country, under the dominion of Great Britain. It will be rigorouſly enforced, even againſt veſſels coming from ports where no ſuch agent reſides. This law is ſupplementary to one of the ſame nature, of the 1ſt Meſſidor, 11th year, (20th June, 1803) but more ſevere in its diſpoſitions, as there was a modification in the latter by which an exportation of an equal value in French manufactured goods, within the three months following the importation, was to be conſidered as an exemption from all penalties, ſeizures, or confiſcations; but this privilege is no longer allowed.

THE ſubſcriber being deſirous of removing to the weſtern country offers for ſale the following tracts of land in Fairfax county Virginia, viz. The tract on which he reſides containing about 740 acres, five miles below Alexandria and within one mile of Potomac river, in an agreeable neighborhood, the ſituation pleaſant and remarkably healthy; the land level and well adapted to the production of Indian corn, wheat and other ſmall grain; the improvements are a large and commodious dwelling houſe two ſtories high, 54 feet long and 34 feet wide, with four rooms and a paſſage on a floor, a piazza nine feet wide on each front, the full length of the houſe and an excellent cellar under the whole houſe, divided into four rooms and a paſſage, a good kitchen, meat houſe, dairy, ice houſe and every other neceſſary building, all in good repair, with a well of excellent water, a good garden, apple and peach orchard and about 40 acres of excellent timothy meadow, and as much more may be made at a very ſmall expence, alſo an overſeer's houſe, negro quarters, a granary, &c. One other tract containing about 1250 acres ſix miles below Alexandria divided into two farms ſufficient to work nine or ten hands on each; the buildings on theſe Farms conſiſt only of overſeer's houſes, negro quarters, granaries, &c. there are 40 or 50 acres of good timothy meadow well incloſed and a great deal more may be made at a trifling expence; the land very level and fertile with an abundance of timber; this tract is allowed by thoſe who know it well to be equal if not ſuperior to any tract of the ſame extent in this part of the country, it will be ſold entire or divided as may be found moſt convenient. One other tract near the laſt mentioned one containing 402 acres rented to tenants at will, a conſiderable portion of which is level and the ſoil good, there are on it two or three beautiful and commanding ſituations for buildings and a meadow from which one of the tenants ſells from 15 to 20 tons of hay a year.

Another tract of about 325 acres 9 or 10 miles below Alexandria, through which the ſtage road leading from thence to Richmond paſſes; this would be an excellent ſtand for a tavern there being none at this time between Alexandria and Colcheſter, a diſtance of 16 or 18 miles. Alſo one other tract near the laſt containing about 400 acres, both the laſt mentioned tracts are likewiſe rented to tenants at will, they produce good corn wheat and other ſmall grain, and there is on each of them a conſiderable quantity of excellent timothy meadow in good order from which the tenants ſell a great deal of hay.

IRON WORKS
FOR SALE.

IN Wythe county ſtate of Virginia, on Cripple Creek about 15 miles from the Great Kanhawa and 40 miles from the north fork of Holſton which affords a tolerable ſafe navigation to a prodigious ſcope of the weſtern country, where perhaps iron is in greater demand than any other quarter of the United States.

Cripple Creek affords a ſufficiency of water for both forge and furnace, being fed by bold never failing ſprings. The furnace and all the buildings have been commenced within 4 or 5 years—they conſiſt of dwelling houſes, kitchens, and a ſtore houſe; alſo, a large and convenient ſtable. The forge has not long been completed. It is ſuppoſed to be the beſt built forge in Virginia, being out of choice timber felled at proper ſeaſons and executed by a firſt rate forge carpenter from Pennſylvania. It works three fires and two hammers, is ſixty feet long and fifty wide, well covered with joint ſhingles. There are between 7 and 800 acres of land attached to theſe works, ſome of it of excellent ſoil, and any quantity may be procured within 6 or 8 miles for from 1 to 8 dollars per acre.—The ore banks appear to be inexhauſtible, lying within one mile of the furnace and good roads. From one of the banks the ore may be conveyed by water within 10 ſteps of the furnace, with the inconſiderable expence of 40 or 50 dollars.

The quality of the iron is acknowledged by thoſe who have uſed it to be equal to any. It is particularly ſought for by lock makers, ſaddle tree platers, cutlers, &c.

The demand for iron in that country is far beyond what is made, and is ſelling from 40 to 50l. per ton. I have no heſitation to ſay, contracts on not a very long credit can be had for almoſt any quantity yearly, as from that quarter a conſiderable portion of the weſtern country is ſupplied.

As it is ſuppoſed a purchaſe of this magnitude would not be made, without a view of the property by thoſe inclined to purchaſe, it is deemed unneceſſary to give a further deſcription.

Letters addreſſed to me at Abington, Virginia, will be duly attended to.

I will also sell my

SALT WORKS

On Holſton in Waſhington county Virginia, which is now rented at 10,000 Dolls. a year. I have adjoining to it between 5 and 6000 acres of land well covered with timber, a conſiderable proportion of which in point of fertility is equal to any land whatever, and will afford 3 or 400 acres of meadow, nearly 100 being now in good timothy. The buildings which are extenſive are in a good ſtate of preſervation.
