A special stove for warming the air before it reaches the carburetor and a fully jacketed intake manifold forms a combination that insures perfect vaporization of all grades of fuel—and the very maximum of gasoline mileage. And that, may I remark, is a considerable item these days.

Chas. E. Riess

The Comfort Car

HUPMOBILES in times past have made some wonderful records on the score of endurance; authentic repair cost records that read like fairy stories come to our ears every week, sent in by Hupmobile enthusiasts.

If there is any truth to be gained from comparison of specifications, if dependence can be placed on road tests that have occupied nearly two years, we predict that on the score of sturdiness the Series "R" will better the record of every other model of Hupmobile that has preceded it.
