This Journal was established in Richmond, Va., January, 1866, and has now reached its ninth volume. It was removed to Louisville, Kentucky, by the invitation of the Kentucky State Medical Society, May, 1898.

It is the only Medical Journal in this State. Its circulation has been doubled during the past year, and is now constantly increasing; the present circulation is 1,250; of this number, over 300 copies are sent to Kentucky physicians every month, and over 500 copies to physicians immediately south of Kentucky; 400 copies are sent to Northern physicians.

As an advertising medium it offers the best advantages, not only to those who deal in Medical Supplies, Instruments, etc., but to all that desire to obtain the direct patronage and support of over 1,250 citizens, who, in common with all men, need the miscellaneous articles required in daily life. In Europe, Mercantile and Commercial Houses have learned this valuable fact, and they advertise in Leading Medical Journals just as promptly, and as extensively as they do in the daily papers.
