

CAMPBELL'S COMBINATION JOB & BOOK PRESS

THE ABOVE CUT REPRESENTS OUR NEW **JOB AND BOOK PRESS**, WHICH IS ACKNOWLEDGED TO BE WITHOUT A COMPETITOR FOR ITS EXCELLENCY AND RAPIDITY OF WORK.

It has two rollers over the form, with an arrangement for tripping the impression, which allows an unlimited inking of the form.

It is especially adapted to general office job work, having no tapes, and discharging the sheet direct from the cylinder with the clean side to the fly, thereby preventing the smutting of the sheets when large colored surfaces are exposed.

It has our unrivaled patent Combination Distributor, which, together with the table distribution (original with us), makes it perfect; and also has very many other advantages which other presses do not possess.

The speed is greater than any other press of the same size and same number of rollers, though it runs with less noise and without any jar whatever, and is one of the most compact, accurate and effectnal presses ever offered to the public.

The price of this press will be found below. For other styles and sizes, send for circular to our office, **39 Beckman St., N. Y.**

No.	Size of Bed.	Size of Form.	Rollers.	Speed per Hour.	Price.
1	41x56	36x53	2	1500	\$4,000 00
2	37x52	32x48	2	1600	3,500 00
3	34x50	29x46	2	1700	3,200 00
4	31x46	28x42	2	1800	3,000 00
5	30x41	24x37	2	1900	2,700 00
6	27x36	21x32	2	2000	2,400 00
