

Character or Quality

is, after all, the great essential in the circulation of a newspaper. It comes right down to that, when all is said and done.

Quantity of Circulation

is not to be despised either, but without *Character or Quality* it don't amount to much. Only a little thought will prove this to the satisfaction of most advertisers.

When a Paper Has Both

it is peculiarly acceptable.

Under Vigorous Management

THE NEW YORK TIMES has seen a new era in its history of over forty years. Identified with progressive and, at the same time, self respecting and dignified journalism, it has grown steadily but surely in the quantity of circulation, and has lost none of its quality or character.
