

# We want to Remind You

THE PRACTICAL FARMER of Philadelphia is still  
very much alive, and hustling for business.

**T. B. TERRY** Is the most celebrated and best paid agricultural writer in America. THE PRACTICAL FARMER has the exclusive use of his services. He writes for no other Paper.

**JOHN GOULD** With possibly one exception is the greatest dairy authority in America. He is Dairy Editor.

**T. GREINER** Is without question at the head of all relating to the garden. He edits our Garden Department.

**JOSEPH MEEHAN** With his world-wide reputation is the Horticultural Editor.

**PROF. MASSEY** Edits Our Experience Pool, the most unique feature of Agricultural Journalism to-day.

It is essentially an up-to-date paper. Every issue contains contributions from 90 to 120 practical farmers, who are more accustomed to the use of the spade than the pen. No other Agricultural paper is so eagerly looked for every week by its subscribers.
