A Division of Dictaphone Corporation
The Scully 270 Long Play Reproducer is the standard of excellence in automated broadcasting. Designed to run trouble-free for long periods, the 270 is an extra-rugged, heavy-duty quality reproducer. Its features include: disc brakes; transistorized, plug-in amplifiers; one-piece solid frame construction; plug-in reel hubs; automatic start torque tension control; instant access; and reversing capability.

Using ¼" tape, the Scully 270 is a monophonic half or full-track, and stereo two or quarter-track unit. It accepts up to a 14½" reel and is available at speeds of 3⅛ & 7½ ips, or 7½ & 15 ips.

The Scully 275, a playback-only unit, was developed in answer to the Industry need for a professional, solid-state, editing machine. Its reproduce-only electronics system includes a 3-watt monitor speaker amplifier. The electronics are those of the Scully 280 without VU meter and Record capability. The transport is also the standard Scully 280 without a phone jack substituted for the Record button.

Address P.O. as follows:

U.S. Gov't. price schedule for basic equipment
is 1-9 units, 15% discount from list prices; 10 or more units, 18% from list price. 15% discount on custom accessories, optional extras or replacement parts, for any quantity. Add $70 to the net unit price for 50 Hz.
The Scully 280 Recorder is another example of Scully professional craftsmanship. Included in its many high-performance features are: smooth action tape lifters with instant access to manual override; optional Motion Sensing; handsome control center designed with functions in operations-oriented sequence, including edit control switch, sweep loading tape path and hum shield lock. The solid state 280's have exclusive Scully plug-in head assemblies for either mono or stereo recording.

Other 280 features include: patented disc brakes; optional selective synchronization for multi-channel over dub effects; patented linearity circuit for super low distortion; scrape filter for recording excellence; and tapped transformers for lowest operating temperatures.

Available unmounted, in console or portable case. 280 configurations include standard 1/2 mono and stereo plus 4 track for quadrasonic use.

The Scully 280 SP/14 Recorder includes all the many features of the standard 280s and, in addition, accepts up to 14 reels.

Information For Ordering:

**Delivery:** Delivery within 60 days from receipt of order. Free delivery to the 50 states, District of Columbia and Puerto Rico.

**Overseas Orders:** Orders originating from overseas installations should be directed to Export Department, Scully Recording Instruments Company, 480 Bunnell Street, Bridgeport, Connecticut 06607.

**Packing:** All packing to conform with best commercial practice. Export packing available at additional cost. Contact Company Offices, Bridgeport, Connecticut, for export packing information.

**Installation Instructions:** Installation and instructions for all Scully equipment included with shipment.

**Electric Current:** Scully Recording equipment normally operates on 105-125 Volts, 60 cycles per second, AC, single phase. 50 cycles operation available at additional cost of $70.00 per unit. Equipment has been submitted to Underwriters' Laboratories for approval and does not meet requirements of MIL-1-7623 (Navy) and MIL-1-16910 (ships) for radio interference.

**How to Place Order:**
1. Select items described in this catalog.
2. Government Agency prepares purchase order, including all the following information:
   a. Model number
   b. Head configuration (full, half track or stereo)
   c. Tape speed
   d. Tape width
   e. 50 or 60 cycle operation
   f. Price
   g. Shipping instructions
4. If any equipment is received in damaged condition, the Government Agency will immediately advise Scully by collect wire, indicating Purchase Order Number, Serial Number of equipment, and extent of damage and request disposition instructions.

**Terms of Payment:** 2% discount allowed for payment within 30 days from invoice date.

**Technical Information:** For more detailed technical information than presented in this catalog, submit specific questions to: Technical Director, Scully Recording Instruments Company, 480 Bunnell Street, Bridgeport, Connecticut 06607.

**Servicing Points:** Mechanical servicing of Scully Tape Reproducers and Recorders/Reproducers is available from any of the Authorized Service Centers, or from the main manufacturing plant at 480 Bunnell Street, Bridgeport, Connecticut 06607. The Authorized Service Centers will also provide replacement parts for normal spare parts requirements. A complete supply of all parts is immediately available by writing, wiring or phoning: Service Director, Scully Recording Instruments Company, 480 Bunnell Street, Bridgeport, Connecticut 06607. Telephone (203) 335-5146.
