west of Nimitz Gate  
Pearl Harbor Naval Shipyard and Intermediate Maintenance  
Facility  
City and County of Honolulu  
Hawaii

U.S.G.S. Pearl Harbor Quadrangle Hawaii 7.5 minute series,  
Universal Transverse Mercator Coordinates: 4.608190.2361560

Significance: Building 1H was used by Navy personnel to provide office  
spaces. Building 1H functioned as part of the Pearl Harbor  
Naval Complex but is only of minor importance to the historic  
character of the National Historic Landmark.

Description: This building was constructed as a four-story, permanent  
administrative office annex. It is constructed with concrete and  
CMU walls set on a concrete foundation. The overall  
dimensions of the building are 71 feet long by 21 feet wide by 40  
feet high. The first floor is 71 feet long by 21 feet wide by 10  
feet high. The second, third, and fourth floors are 16 feet long  
by 16 feet wide.

History: The building was constructed at a cost of \$17,500 in 1944 as an  
addition to the headquarters of the Navy Yard (now Naval  
Shipyard and Intermediate Maintenance Facility). Built during  
World War II to prepare Pearl Harbor for an increased military  
presence, this building served as an administrative office. It  
housed various administrative personnel. Since 1973, the first  
floor has been utilized as the Shipyard's photographic  
laboratory. A Military Construction project, P-215, will  
demolish the aged and deteriorated building.
