HISTORIC AMERICAN BUILDINGS SURVEY

CAMP WILLIAMS

(127<sup>TH</sup> INFANTRY REGIMENT CANTONMENT AREA SUBCOMPLEX--BUILDING 129)

- Location: 129 Peoria Street  
Camp Williams-Volk Field National Guard Training Center  
Camp Douglas, Juneau County, Wisconsin
- Significance: Building 129 was constructed in 1940-1941 as a company mess hall for the 127<sup>th</sup> Infantry Regiment Cantonment Area.
- History: Building 129 was designed by Lieutenant Colonel Henry C. Hengles and erected between 1940 and 1941 by the Works Progress Administration. It served as a company mess hall for the 127<sup>th</sup> Infantry Regiment Cantonment Area and replaced a wood-frame structure. The building currently functions as a private-room barracks.<sup>1</sup> A detailed history of the subcomplex is provided in the document for HABS No. WI-381-A.

Description:

- A. General Statement: This building is constructed on a slight west northwest-east southeast axis. Directions have been simplified to north-south-east-west within this section.
1. Architectural character: Building 129 is a one-story, astylistic utilitarian, front-gabled structure constructed of tan, glazed tiles with red brick accents at the gables, corners and original doorways. A wall chimney, heavy timber purlins and lintels adorn the building. Asphalt shingles sheath the roof.
  2. Condition of Fabric: The exterior fabric is good. Alterations are limited to the wholesale replacement of windows and doors. The top portion of the wall chimney has been replaced with red brick. The building has been converted into private-room barracks. Thus the interior is completely renovated.
- B. Exterior Description:
1. General Description: Oriented on an east-west axis, the gabled north (main) facade is pierced by a central double doorway infilled with paneled wood and

flanked by replacement double-hung sashes. A louvered vent underlined with a thin concrete sill is set in the gable peak. The open eaves are supported by five heavy timber purlins.

Beginning at the southwest corner, the south facade claims six regularly placed, double-hung sashes – the fifth one of which has been converted into a doorway. An open expanse separates these windows from two additional examples near the southwest corner.

The east gabled endwall is defined by a central wall chimney flanked by large, one-over-one, double-hung sashes. Six heavy timber purlins underline the open eaves.

Starting at the northeast corner, the north facade is pierced by a door that once opened into the kitchen, as well as two smaller double-hung sashes and a second door that once accessed the dining hall. This latter doorway has since been converted into a window. The rest of the facade carries six regularly placed windows that mirror those to the south facade. The second opening has been converted into a doorway.

2. Overall Dimensions: The building is 75' x 25'.
3. Foundations: The foundation is of poured concrete.
4. Walls: The walls are constructed with 12" x 5" tan glazed tile and are 8" thick. The tile is accented by red brick at the corners, around original doorways, within the wall chimney and on the gables at the eaves.
5. Roof: The gabled roof is covered with asphalt shingles laid on 6" wide boards. The eaves are open with exposed 2 x 6 rafter tails placed on 24" centers. Exposed timber purlins on the west (five) and east (six) gabled endwalls are 6" x 6" and project 15½". The gables are underscored by red brick accents.
6. Openings:
  - A. Windows: Windows are regularly placed throughout the building. Each has a concrete sill and a 5½" thick timber lintel. The windows are generally fitted with replacement, metal, one-over-one, double-hung sashes.

Page 3

The two windows on the west (main) facade are 37" x 60". Two smaller double-hung sashes on the north facade that are consistent with the former kitchen are 37" wide x 35" tall, while the openings on the east facade that flank the wall chimney are 49" x 59½". All remaining window openings are 37" x 51".

B. Doorways: All doors are metal replacements. Those in original openings are topped with 5½" thick wood lintels and feature red brick surrounds. The double doorway on the north (main) facade measures 67" x 80½" and is infilled with paneled wood. The original door in the northeast corner is 39½" x 80½". Two doorways converted from window openings are 37" x 81".

7. Chimney: A wall chimney constructed of tan, glazed tile with red brick accents at the corners is centered on the east gabled endwall. It is 50" wide and projects 11". Two metal ash cleanout doors (10½" square) are at the bottom. The chimney's top portion has been replaced with red brick and is crowned with a concrete cap pierced by two square tile flues.

C. Interior Description:

- A. General Description: The east end of the building originally contained a kitchen, while the rest of the building was occupied by an open dining hall. The mess hall has been converted into private-room barracks. No original fabric remains.

D. Setting:

Building 129 is a component of the 127<sup>th</sup> Infantry Regiment Cantonment Area Subcomplex, which also includes Building 117 (HABS WI-381-A-1), Building 118 (HABS WI-381-A-2), Building 119 (HABS WI-381-A-3), Building 120 (HABS WI-381-A-4), Building 121 (HABS WI-381-A-5), Building 122 (HABS WI-381-A-6), Building 123 (HABS WI-381-A-7), Building 124 (HABS WI-381-A-8), Building 125 (HABS WI-381-A-9), Building 126 (HABS WI-381-A-10), Building 127 (HABS WI-381-A-11), Building 128 (HABS WI-381-A-12), Building 130 (HABS WI-381-A-14), Building 131 (HABS WI-381-A-15) and Building 132 (HABS WI-381-A-16). Additional components of the general Camp Williams complex include the 128<sup>th</sup> Infantry Regiment Cantonment Area (HABS WI-381-B) and the former Officer's Club and present day museum (HABS WI-381-C).
