Queste d'alto piacer, non vil disegno,
Nobil Signor, ti accende
A compor dolci note, ove risplende
Il tuo sourano ingegno,
Ammira il mondo, e lieto accoglie, intenti
L'odono l'aure, e i uenti,
si aggira il Ciel concorde
A l'armonia de le tue dotte corde,
E fatto Ciel si aggira anco ogni core
Al tuo sommo Valore

Del Medesimo

Ò di Marte, e d'Apollo
Sola cura, e diletto,
Sig.r, che t'armi il petto
Di uirtù, di ualore,
Folgore in guerra, in pace sei splendore
Sai uibrar l'Asta, e sai comporre i carmi,
Cantino homai le Muse al suon de l'armi

La vaghezza, et la nouità di questa maniera d'intauolatura, che tanto al mondo piace, et in cui V.S. siami lecito senza nota di passione per essergli fratello, dirò il vero) è riuscita eccellente; tale è il giudicio, che ne hanno fatto i più pellegrini ingegni; è tanto desiderata, ch'io conoscendo i suoi pensieri à cose maggiori, et à più alti studij riuolti, & confidatomi nel fratellieuole amore, tanto più che buona parte ne andaua sparsa quà, e là per le mani di molti; di farne un domo à gli studiosi, et à V.S. mi son'io risoluto di dedicarla, e non altrui, perche, s'ella di me si richiamasse, che senza sua licenza le sue compositioni, quasi inuolatele hauessi ardito di publicare, così restituendogliele, il furto palesando, et aggrauando la conscienza mia tutt'in un tempo, uenga à sodisfare à lei, à me, et all'uniuersale, à lei, che ricauerà le sue fatiche; ma diuenute, quasi di priuate' donniciuole, grandi Cittadine del mondo, à me, che desideroso della sua gloria, ne sarò à parte, all'uniuersale, che tanto mostraua desiderarle. Le accetti dunque con pronto animo, e quieto, et come sue creature le accolga, et riconosca, et questa mia risolutione gradisca, ch'io pregarò il Sig.r Dio che lungam.te la conserui, e mi doni grattia che quale io bramo, tale la possa vedere.
