INVENTORY OF PHOTOGRAMMETRIC IMAGES

The glass photogrammetric plates listed below are not reproducible except with special permission. However, reference prints and film copy negatives have been made from the plates indicated by an asterisk (\*) and are included in the Library of Congress collection of formal HABS/HAER photographs.

- 3 9.5" x 9.5" glass plate aerial diapositives produced by Perry E. Borchers of the Ohio State University in 1975.

Survey control information and survey control contact print for each plate.

- LC-HABS-GS01-B-1975-401 AERIAL VIEW  
Left photograph of pair with 402  
401 and 402 overlap: 60%
- LC-HABS-GS01-B-1975-402 \* AERIAL VIEW  
Right photograph of pair with 401  
402 and 401 overlap: 60%  
  
Left photograph of pair with 403  
402 and 403 overlap: 60%
- LC-HABS-GS01-B-1975-403 AERIAL VIEW  
Right photograph of pair with 402  
403 and 402 overlap: 60%

PROJECT INFORMATION STATEMENT

Photogrammetric images were incorporated into the HABS/HAER collections in the summers of 1985 and 1986. Inventories of the images were compiled and filed as data pages for each structure recorded. Since the glass photogrammetric

Data (Page 2)**

plates are not reproducible except with special permission, a reference print and film copy negative were made from one plate of each stereopair and from the most informative plates in sequential sets. The reference prints and copy negatives were then incorporated into the formal HABS/HAER photograph collections.

The Photogrammetric Images Project was a cooperative endeavor between the HABS/HAER Division of the National Park Service and the Prints and Photographs Division of the Library of Congress. The reference prints and film copy negatives of the original plates were made by the Library of Congress Photoduplication Service with funds provided by the Library of Congress Flat Film Preservation Fund. Additional reproductions were made by HABS/HAER. The project was supervised by HABS/HAER Architect John A. Burns, AIA, and completed by HABS Historians Jeanne C. Lawrence (University of London) in 1985 and Caroline R. Alderson (Columbia University) in 1986.
