INVENTORY OF PHOTOGRAMMETRIC IMAGES

The glass photogrammetric plates listed below are not reproducible except with special permission. However, reference prints and film copy negatives have been made from the plates indicated by an asterisk (\*) and are included in the Library of Congress collection of formal HABS/HAER photographs.

- 4 5" x 7" glass plate negatives (2 stereopairs) produced by Perry E. Borchers of the Ohio State University in 1976.

One survey control contact print for each plate; survey control information for each pair.

LC-HABS-GS05-B-1976-801R \* RUINS OF OLD COURTHOUSE SEEN FROM THE EAST

Left and right overlap: 95%

LC-HABS-GS05-B-1976-802L RUINS OF OLD COURTHOUSE AND JAIL SEEN FROM THE NE

LC-HABS-GS05-B-1976-802R \* RUINS OF OLD COURTHOUSE AND JAIL SEEN FROM THE NE

Left and right overlap: 95%

- 10 9.5" x 9.5" glass plate diapositives (2 stereopairs and 6 aerial photographs) produced by Perry E. Borchers of The Ohio State University in 1976.

One survey control contact print for each plate; survey control information for each stereopair and for each aerial plate

	LEFT PHOTOGRAPH OF PAIR WITH 808 810 and 808 overlap: 60%

PROJECT INFORMATION STATEMENT

Photogrammetric images were incorporated into the HABS/HAER collections in the summers of 1985 and 1986. Inventories of the images were compiled and filed as data pages for each structure recorded. Since the glass photogrammetric plates are not reproducible except with special permission, a reference print and film copy negative were made from one plate of each stereopair and from the most informative plates in sequential sets. The reference prints and copy negatives were then incorporated into the formal HABS/HAER photograph collections.

The Photogrammetric Images Project was a cooperative endeavor between the HABS/HAER Division of the National Park Service and the Prints and Photographs Division of the Library of Congress. The reference prints and film copy negatives of the original plates were made by the Library of Congress Photoduplication Service with funds provided by the Library of Congress Flat Film Preservation Fund. Additional reproductions were made by HABS/HAER. The project was supervised by HABS/HAER Architect John A. Burns, AIA, and completed by HABS Historians Jeanne C. Lawrence (University of London) in 1985 and Caroline R. Alderson (Columbia University) in 1986.
