1890.

THE NEW PENSION LAW

ACT OF JUNE 27, 1890.

EX-SOLDIERS AND SAILORS OF THE REBELLION

Who Served 90 Days in the U. S. Army, and their

Widows, Children and Dependent Parents,

Are Entitled to Pension under

The Disability Pension Bill.

COMMENCEMENT OF PENSIONS.

All pensions granted under this new law will commence from the date when the application thereunder is filed with the Commissioner of Pensions, and such applications will be considered in the order in which they are filed. It is therefore of the greatest importance to every person entitled, to file their application at the earliest possible moment.

The attorney's fee for prosecuting Claims under this Act is restricted to *Ten Dollars*, PAYABLE AFTER ALLOWANCE OF CLAIM.

No Charge unless Successful.

PENSION is due every soldier who served 90 days who is now disabled, whether such disability was contracted during or

SINCE THE WAR.

PENSION is due Widows and Children of every Soldier who served 90 days and was honorably discharged, NO MATTER WHAT CAUSED HIS DEATH. PENSION is due DEPENDENT PARENTS upon proof of present dependent condition if the Soldier died from cause originating in the army, and left no widow or minor child surviving him. INVALID PENSIONERS receiving *less than \$12.00* per month can secure that rate under the *New Law*, if they are disabled for obtaining a living by manual labor by existing disabilities whether *contracted in the service* or *SINCE THEIR DISCHARGE*.

REJECTED CLAIMS FOR INVALID PENSION.

where *proof of origin in service* could not be furnished, can be substituted by a claim under this new law.

Proof on File in Pending or Rejected Claims can be used by us in the prosecution of these cases.

Write to us for information and blanks.

Pension, Bounty and Soldiers' Claims Agency.

OFFICE OF TUCKER, EVANS & MANOGUE,
ATTORNEYS-AT-LAW,

P. O. Box A.

WASHINGTON, D. C.

402 6th St., N.W.

We take pleasure in announcing to all our old correspondents and clients—and attorneys and claimants generally—that the former firms of

Tucker & Bishop, Richard P. Evans & Co. and Wm. H. Manogue & Co. have formed a co-partnership for the special prosecution of SOLDIERS' CLAIMS, and the new firm solicits a continuance of your patronage; all business intrusted to us will receive prompt personal attention. Former CLIENTS of either firm need no references. Those who desire to make inquiries as to our standing can write to any of the parties named on the second page of cover.

This firm has prosecuted Soldiers' Claims since 1849 (close of Mexican War), and have secured nearly Fifty Thousand (50,000) Allowances of Pension, Bounty, Lost Horses, Pay, Bounty-Land, and other Soldiers' Claims, amounting to over Twenty Millions (20,000,000) Dollars, paid into the hands of soldiers and their heirs through our attorneyship.

The firm is composed of three experienced LAWYERS, who have associated with them competent and trained assistants thoroughly conversant with the several branches upon which they are engaged. Each individual claim placed with us receives our personal attention, and our clients will have the SERVICES OF SEVERAL ATTORNEYS FOR ONLY ONE FEE.

We invite correspondence with claimants and local attorneys and will give advice and furnish blanks free of charge. Our long experience in Departmental practice assures our clients that no points in their favor will be overlooked. To those who employ us as their attorneys we promise conscientious and faithful attention, and more effectual service than can be rendered by any Ex-Commissioner or Pension Office Clerk, lacking our many years' experience in prosecution of claims.

INVALID PENSIONS.

Every person enumerated in the following CLASS-ES, if disabled by wound, injury or disease (*or results of same*) incurred while in LINE OF DUTY in the UNITED STATES MILITARY or NAVAL service during the REBELLION or any prior WAR, is entitled to an INVALID PENSION.

CLASS I. All Officers and enlisted men of the Army, Navy, or Marine Corps, including regulars, volunteers and Militia, whether regularly *mustered*, or not, are entitled to pension if disabled by reason of wound, injury or disease, incurred while in service, in line of duty.

CLASS II. Any master, pilot, engineer, sailor, or other person not regularly *mustered*, serving upon any Gun-boat or War-vessel and incurring any disability thereon.

CLASS III. Any acting assistant or contract-surgeon disabled in any manner while actually performing his duties in the field, or in transitu, or in hospital.

CLASS IV. Any provost-marshal, deputy provost-marshal, or enrolling officer disabled while in discharge of his duties as such by a *wound* or *injury*.

CLASS V. The officers and privates of the Missouri State Militia, and the Provisional Missouri Militia who contracted disability *while co-operating* with the United States forces.

CLASS VI. The officers and seamen of the Revenue Marine service disabled while *co-operating* with the Navy, *by order of the President*.

CLASS VII. Officers, non-commissioned officers, musicians and privates whether *mustered* or not, but *accepted* and *actually employed* in the U. S. military service by the Generals who have been in command of the Department of the West or the Department of the Missouri who were wounded or incapacitated for service. This includes the "THREE Months Missouri Vols", and such of the "Missouri Home Guards" and other irregular organizations as were recognized by the Hawkins Taylor Commission, or whose service is established by the records of the Adjutant General or Paymaster general U. S. A.

CLASS VIII. Professors of the Military and Naval Academies, and Medical Cadets.

CLASS IX. The Volunteers who were wounded or disabled while serving with the United States troops in the Territory of Montana during the war with the Nez Perce Indians.

CLASS X. Hospital Stewards and General Service men if disability was contracted while actually in the field, or on the march, or at some post, fort, or garrison, or en-route thereto under competent authority: if in naval service, they must be borne, at time of contracting disability, on books of some ship or other vessel actually in commission: or be at some naval station; or on their way to the United States, under orders, or to some other vessel or station, or to hospital. The restrictions of this paragraph, as to line of duty govern *all cases* when disability originated after July 27, 1868.

CLASS XI. All non-enlisted persons who volunteered and rendered service in co-operation with U. S. forces in engagement with rebels or Indians, who were wounded or injured in battle, and whose claims were *filed and completed for allowance prior* to July 4, 1874. Such claims *pending on that date* and not yet allowed are still susceptible of *admission* upon satisfactory *record evidence* showing the receipt of *wound or injury in battle*.

CLASS XII. Act of June 27, 1890.

All persons who served 90 DAYS, or more, in the military or naval service of the United States during the late WAR of the REBELLION, and who have been honorably discharged therefrom, and who are suffering from a mental or physical disability of a permanent character, not the result of their own vicious habits, which incapacitates them for the performance of MANUAL LABOR in such a degree as would render them unable to earn a support thereby, are entitled to pension at rates from \$6 to \$12 per month, whether such disability was contracted during or SINCE their service.

See Title "THE DISABILITY PENSION BILL", p. 9.

COMMENCEMENT OF INVALID PENSIONS.

WAR OF THE REBELLION—(1861-'65.)

When the disability claimed for originated during the Rebellion (or after March 4, 1861) and is mentioned in a declaration (application) filed in the PENSION OFFICE prior to July 1, 1880, the pension for such disability will commence at date of soldier's discharge from the term of service during which the disability originated. If however, the claim is made in a declaration—or application—filed on or after July 1, 1880, the pension will commence at date of filing the declaration in the PENSION OFFICE.

For example: If a soldier, who was discharged April 9, 1863, filed an application for pension on or before June 30, 1880 alleging disability on account of RHEUMATISM,—and in an amended declaration filed July 1, 1880 he claims for DIARRHŒA, and March 4, 1885 he filed a claim for DEAFNESS,—should all of the disabilities be proved up and pension granted for each,—the pension for RHEUMATISM will commence April 9, 1863 (date of discharge), while the pension for DIARRHŒA will begin July 1, 1880 and the rating for DEAFNESS will commence March 4, 1885, the dates of filing the respective claims for diarrhœa and deafness. (See Rates of Invalid Pensions, page 22.)

Under the practice of the Pension Office, if claimant files an affidavit in which he mentions a disability as having originated in service, it will be regarded as an informal declaration, and if a formal application is afterwards filed and allowed, the commencement of pension will be governed by date of filing the affidavit in which the disability is first named.

The only exception to the above rule, as to the commencement of Invalid Pensions for disabilities incurred during the Rebellion, is where the soldier is INSANE in which case the pension will commence at date of DISCHARGE without regard to date of filing the application. The claim itself need not be on account of his insanity, but can be filed for any disability incurred by him in the service, in line of duty: the fact of his insanity exempts him from the operations of the act of limitation.

DISABILITIES CONTRACTED PRIOR TO THE REBELLION

are pensionable, but the rule as to the date of commencement of the pension is different.

In this class of cases if claim was filed *within three years* after date of *discharge* of soldier the pension will commence at such date: but if *not* filed *within* said three years the pension will begin at date of filing the *last* important testimony required to establish the claim.

PENSIONS DUE WIDOWS, CHILDREN AND DEPENDENT RELATIVES, Under the General Laws.

1. Widows of soldiers and sailors who died while in the U. S. service, or of results of disease or injuries contracted while in the service, are entitled to pension during their widowhood. If the soldier died from disabilities contracted since the fourth day of March 1861 the pension will commence at date of his death: if the death cause originated prior to that date (during any war prior to the Rebellion) the pension commences at date of filing the last paper necessary to complete her claim. The rates of pension vary with the rank of the soldier (see TABLE of PENSION RATES page 24) but where marriage to soldier or sailor occurred prior to March 19, 1886, the monthly rates being \$8 *prior* to that date, she is entitled to \$12 per month on and after that date. If soldiers' service was rendered *since* said March 19, 1886 and the marriage occurred prior to or during such service the same rate is due. Re-marriage, or open and notorious adulterous co-habitation terminates right to pension. Two dollars per month additional for each child of soldier, under 16 years of age at date of his death, is payable to the widow while such children are under her care until they severally become 16 years old. In this class of cases a *re-married widow* is entitled to claim and receive all pension money due from death of soldier to date of her re-marriage, and can also obtain any arrears due the deceased soldier whether upon a pending and unsettled claim for Invalid Pension (which she can complete) or if in shape of accrued pension money. Legal marriage to soldier and births of children have to be proven, and that his death was due to cause originating during his service.

2. MINOR CHILDREN (under 16 years of age at date of SOLDIERS death) are entitled to the same rates of pension as are allowed to Widows, provided,—Soldier died without leaving a surviving widow,—or the widow *died* or re-married. If the widow died *without drawing pension* the minor children are entitled from date of soldier's death: if she drew pension—then their right commences from date of her death (if under 16 at that date): if however she has re-married they can only draw from date of her re-marriage, —unless she dies without drawing pension subsequent to re-marriage. Their pension payments cease at date they reach the age of 16, but they can file a claim at any age for pension money due them up to that date.

3. MOTHERS are entitled to pension, provided the soldier left no widow or minor child surviving him and they can show dependence upon the soldier (and her own labor) in whole or in part, at date of his death, and that he died of disability contracted in the service.

If claim was filed prior to July 1, 1880 she is entitled to full arrears from date of soldiers' death, but if not filed until *after* that date then pension commences at date of filing application in the Pension Office.

4. FATHERS are entitled upon same conditions as mothers except that in cases where the mother *survived soldier* the father's right accrues and commences at date of her death. He must not only prove relationship, death of mother and dependence, but also his inability to provide for himself an adequate support by his own labor. Neither mother nor father can complete a Soldier's invalid pension claim pending at date of his death, and a father cannot draw arrears of pension due upon a mother's unsettled pension claim.

5. BROTHERS and SISTERS are entitled to pension if soldier left no widow, child, mother or father surviving him, they being dependent upon him for support and under 16 years of age at date of his death.

The foregoing relates to Pension Claims filed under the General Laws for pension due because of soldiers *death from army causes*. The following pages set forth rights accruing, under other laws, to Disability and Service pensions.

THE DISABILITY PENSION BILL

ACT OF JUNE 27, 1890.

Grants Pension in the following Cases.—Ex-Soldiers and Sailors of the Late War.

1. All ex-soldiers and sailors who served 90 days or more in the U. S. Army or Navy, during the Rebellion, and were honorably discharged, and who are now suffering from any permanent mental or physical disability contracted *since* the War or during the War, whether disease, injuries or affects of old age, are entitled to a pension at the rate of from \$6 to \$12 per month, according to the degree of disability for the performance of labor requiring the exertion of physical strength; provided the disability is not due to vicious habits. This pension is not restricted to the veterans who have to make their living by hard labor, but is equally due to professional men or clerks, provided they have an existing disability which would prevent their earning a support by the continuous exercise of physical strength.

Soldiers and Sailors who have *applied* for *pension* under the general laws, and who are unable by reason of death of witnesses, or lack of funds, to prove up the pending claim can apply for and secure this pension and then continue the prosecution of the former claim and secure their arrears.

If you are now *drawing a small Pension* say \$6 per month or less, you can take this pension instead, and if you have an application on file for increase or Additional Pension for New Disabilities, you can continue the prosecution of such claims while drawing the new pension; or you can file an original claim for a disability contracted in the service while drawing pension under this New Act.

THE FOLLOWING EXAMPLE WILL EXPLAIN MORE FULLY.

Suppose you are drawing pension for loss of "thumb" at \$6.00 per month, and have a claim for *additional pension* pending for "deafness" contracted in the service, which you can not establish under present rules,—and also have rheumatism or general debility (or any other complaint) *not* contracted in service.

Under the new law you can apply for and receive the new pension and *then while drawing* it renew and complete the prosecution of your claim on account of "deafness". The combined disabilities would probably entitle you to the \$12. rate under the new law, which would be paid to you instead of the \$6, until you completed your "deafness claim" when that disability, together with *loss of thumb*, might entitle you to \$30, Invalid Pension.

REJECTED CLAIMS FOR INVALID PENSION,

where *proof of origin in service* could not be furnished, can be substituted by a claim under this new law.

Proof on File in Pending or Rejected Claims can be used in the prosecution of these cases.

The Widows of Soldiers and Sailors of the late War.

2. All widows of men who served 90 days or more in the Army or navy, and were honorably discharged, who were married to soldier prior to the approval of this Act, are entitled to \$8.00 per month pension if dependent upon their own earnings for a support; also to \$2. per month for each child of soldier under 16 years of age. The soldier's death need not be due to an army disability to entitle his widow to this pension. This pension ceases upon re-marriage.

Any soldier's widow who has a claim pending which she cannot prove up, so far as showing that the soldier's death was due to a disability contracted in the service, or whose claim has been rejected upon that ground, can obtain a pension under this Act, and then renew the prosecution of the other claim and if successful drop this pension and take the other.

Minor Children of Soldiers or Sailors of the late War.

3. In case of death or re-marriage of the widow of a soldier or sailor who served ninety days or more in the late war, leaving a child or children under sixteen years, the pension shall be paid to such child or children until they become sixteen years of age, and in the event that a minor child is insane, idiotic, or otherwise permanently helpless the pension shall continue during the life of said child, or during the period of such disability.

Pensions under this Act commence from date of filing application.

Dependent Parents of a Soldier or Sailor.

4. Under the provisions of this new law it will not be necessary (as formerly required) to show that the parent making application for pension was dependent at the date of the soldier's death, it being now only necessary to establish the fact that such parent or parents are now without means of support other than their own manual labor. If such a condition of dependence be shown such dependent

parent will be entitled to a pension of \$12, per month, provided soldier died of a cause originating during his army service.

Thousands of Claims

heretofore filed and rejected, because the parent was not dependent upon soldier for support at date of the soldier's death can be re-opened and the claimant placed upon the Pension Roll at \$12. per month from date of filing this application.

PENSION IS NOT DUE

and cannot be legally drawn for any period during which the pensioner was serving in the army or navy. For instance;—A soldier contracts a disability in service and is subsequently discharged—June 15, 1862: on March 15, 1869 he re-enlists in the regular army and serves until March 15, 1874, upon which date he is finally discharged. He applies for and is granted a pension for the disability contracted during the first service, which commences at date of first discharge, June 15, 1862, runs until March 15, 1869—date of second enlistment, when it stops and is discontinued until March 15, 1874 (date of second discharge) at which date it again commences, no pension being paid for any part of term of second service. During the prosecution of a claim for pension, claimant is required to file an affidavit in which he must describe his entire military and naval service, giving dates of enlistment and discharge from each term of his service, and swearing positively that he has not performed any other service than as described in the affidavit. This is done to guard against the payment of pension money for any portion of time claimant has been in the army or navy. Service rendered the government as an employee of the Quartermaster or Commissary branches, or as a clerk in any of the Government Departments does not come within this rule: it applies only to the service in the Army or Navy proper.*

WHERE PENSIONS are increased by ACT of CONGRESS the new rate commences at date of the approval of the

(*NOTE—By act of March 1, 1879, all pensions withheld from persons during the time they were employed in the civil service were restored to them.)

Act, or on the date specified in the Act, but when increased upon proof of an increase in the extent or degree of the disability for which pensioned, the increase commences at date of the examination of pensioner by the U. S. Examining Surgeon, upon whose report the higher rating is made.

(See "Increased pensions" page 15.)

COMMENCEMENT OF RENEWED PENSIONS.

Where a pensioner is dropped from the Pension Rolls for any reason, other than his re-enlistment in the Army or Navy, the pension, if subsequently renewed, will commence at date of last prior payment and not at date of restoration. For example: A soldier is placed upon the Pension Rolls on account of disability contracted in the service: on July 1, 1886 he is dropped from the rolls: on July 1, 1887 he makes application for restoration, secures favorable action and is restored to the rolls July 1, 1888; the renewed pension will commence at date to which pension was last paid (July 1, 1886) regardless of dates of application or restoration. Of course should the proof show that the degree of disability has varied during the period while off the rolls the rate may be graded accordingly.

Former Pensioners, erroneously dropped from the Pension Rolls for any reason, can have their Pensions renewed upon a proper presentation of the case before the Commissioner.

RE-RATING and INCREASE OF INVALID PENSIONS.

The proper and adequate rating of a pension is about the most complicated and difficult duty the Pension Office has to perform in adjudicating an Invalid pension claim. Under the present laws and decisions, and the practice thereunder, it is largely a matter of guess work, where the disability is not specific (that is where the law does not specify a positive rate for the particular disability), and the claimant is rarely satisfied with the official guess. It is a mystery to a claimant why he should be rated at \$2 per month for fifteen years,—at \$4. for six years, and and, at \$8. for a fixed continuous rate, in his Original Certificate; and then within six months or a year thereafter, upon an appli-

cation for Increase, be raised to \$18.—or \$24. per month, when he is positive, and the proof filed by him shows, that his disability during the first twenty years was as great as at the present time, if not greater, and his perplexity is not lessened when he ascertains that his comrade, for a similar disability, received an original rating four times as large.

The claimant of course feels aggrieved and naturally decides that his attorney has been negligent of his interests, and that the Commissioner of Pensions has defrauded him out of a large part of the pension money legally due him: neither of which conclusions are correct.

The difference in rates allowed, for SPECIFIC disabilities, years ago and at the present time, are due to the passage of laws from time to time increasing pensions, and to more liberal constructions and rulings upon the part of the Department.

Take, for instance, the LOSS of an ARM at the shoulder joint, for which the correct ratings are as follows: Original rate, \$8. per month: Increased, from June 6, 1866, \$15; from June 4, 1872,—\$18; from June 4, 1874,—\$24; from March 3, 1883,—\$30; from March 3, 1885,—\$37.50; from August 4, 1886,—\$45.

ALSO for TOTAL DEAFNESS the ratings are, Original,—\$8; Increased—June 4, 1872 to \$13; from August 27, 1888,—\$30.

A claimant suffering with either of the above disabilities would have no ground of complaint if pensioned at these rates between the dates mentioned, and an application for re-rating would not be considered by the Pension Office. Claimant's arm would be no shorter now, and his hearing no worse than at date of his discharge from the service, and he might feel that his earlier rates were entirely inadequate and unjust, but on the contrary they would be proper and in strict compliance with the laws existing at the different dates.

The "TABLE OF INVALID PENSION RATES" on page 23, enumerates the various fixed ratings, with dates of commencement and names of disabilities, and pensioners who have not been rated in accordance with the TABLE are entitled to a re-rating of their pensions.

The deficient and inadequate ratings are confined almost entirely to the class of disabilities known as "NON-SPECIFIC" in which the rates are not fixed by law, but are graded by the Commissioner of Pensions at his discretion, limited only as to maximum amounts within certain dates, as shown by the Table of Rates. These disabilities consist of Diseases and disabilities resulting from wounds and injuries incurred in the service, and the rates of pension therefor are presumed to correspond with the consequent degree of soldiers' disability for the performance of MANUAL LABOR,—that is,—work requiring the exertion of physical strength.

In fixing these rates the Commissioner has to rely principally upon the reports of the U. S. Pension Surgeons who examine the claimant: these reports together with the testimony filed by the applicant showing his "physical condition since discharge" is all the Commissioner has upon which to form his judgement as to the degree of claimant's Disability and an adequate rating therefor. And just here is where most of the apparent discrepancies in ratings originate. A soldier affected for instance with Diarrhoea is examined by Surgeons who are negligent or hurried in the examination, or ignorant or prejudiced against pensions: their reports under such circumstances will be entirely different to those rendered in the case of a comrade, similarly disabled, by other surgeons who are competent, thorough and sympathetic; and the ratings based upon these reports will necessarily be widely apart.

The testimony presented by claimants differs very materially: the one files affidavits carefully drawn up accurately describing his continuous physical condition: the other files confused statements in which the condition of soldier is not properly and effectively shown: in the one case the Commissioner can see the disability as it has existed,—in the other he can only guess at it, and the ratings vary accordingly.

At times the Medical reviewers in the Pension Office adopt erroneous conclusions as to a claimant's disability, and recommend inadequate ratings.

In any of these cases, where it can be shown that the Pension Office was in error in its ratings a re-adjustment of rates can be had. It is requisite that

claimant shall file a declaration setting forth the alleged errors upon part of the Pension Office and specifying the rating he claims to be due him. Whether proof will be required in support of such application, and the character of such proof, depend entirely upon the particular circumstances and conditions of each case. Where the rating complained of is one of long standing the most conclusive evidence that an error has been committed, must be filed by claimant. In recent adjudications the error may be corrected by a proper review of the evidence already in the case.

Claimants should state their cases to an experienced and competent Pension Attorney and obtain advice as to their rights before attempting to secure a re-rating.

INCREASED Pensions can be obtained in all cases where the disability has increased since last examination or where RATINGS were too small originally, or where a prior claim for Increase has been erroneously rejected. In many cases Pensioners have army disabilities for which they are not pensioned. In all such cases the pensioner has a right to apply for an increase of his pension and thus have a re-examination of his case and a proper rating for his disabilities. Every pensioner should carefully examine the Table of Pension Rates (page 22), and if he deems himself entitled to higher rating he should lose no time in making application therefore, as no increase will be granted unless an application is filed, and when allowed it dates from the surgeons examination held under such application.

ADDITIONAL PENSION is due all pensioners (not receiving the highest rate) who have army disabilities not mentioned in their pension certificates whether heretofore claimed or not. Full Arrears can be obtained in many cases where the disabilities were mentioned in an application or affidavit filed *prior* to July 1, 1880, and when named in papers filed after that date pension is due from the date of filing same. If not heretofore claimed the pensioner can file an application for Increase and Additional Pension for all such disabilities.

Where a Pensioner contracted a disability while serving as a private, or non-commissioned officer, and has been therefore rated as a private, he is entitled to increase in every instance where a correction of record recognizes him as a Commissioned Officer *prior* to date of incurrance of pensioned disability.

REJECTED AND ABANDONED PENSION CLAIMS.

There have been thousands of Pension Claims rejected that can be re-opened and completed. Many of them were rejected prior to January 25, 1879, under the "five years" rule, which has been repealed; Full Arrears are due in these Cases. Many were disallowed under former requirements of the Pension Office, as to proof, which are not now in force. In large numbers of cases the rejection was had because the soldiers disability was not correctly described in the application; or because the Pension Office requirements were not responded to, and the case was regarded as abandoned. In other cases Several Disabilities were named in the application, and the Pension Office has rejected One Claim, which rejection has been erroneously regarded by the claimant as covering his entire claim.

Many cases have failed because of erroneous reports of incapable Examining Surgeons; or because of a Record of Desertion against the soldier which can now be Removed. See page 33. And very often there neglect and inefficiency upon the part of the claimant's own agent or attorney has caused the rejection.

To re-open rejected cases under the general laws, the rule is that strong proof must be filed bearing upon the exact ground of rejection. All of these cases can be substituted by a claim under act of June 27, 1890 (see page 9) but pension will commence from date of filing the new claim.

Resulting Diseases from Army Disabilities.

A Soldier may be suffering from a disease resulting from some disability due to his military services, and at the same time be entirely ignorant of the origin: some of the natural and accepted sequences or results of diseases, which are considered by the experts as susceptible of proof are here stated, viz:

Diseases resulting from Chronic Diarrhoea.—Hemorrhoids, or Piles, Rheumatism, Disease of Heart, General Debility, Consumption, Dropsy, Dispepsia, &c.

Malarial Poisoning.—Enlarged Spleen, Disease of Stomach and Liver, Rheumatism and Heart disease, Kidney Disease, Deafness, &c.

Measles.—Disease of Lungs, Impairment of Sight, Deafness, Bronchitis, &c.

Rheumatism.—Disease of heart, Change of Structure and Joints, Dropsy, &c.

Scurvy.—Loss of Teeth, Disease of Heart, General Debility, &c.

From Small-Pox.—Disease of Eyes, Throat, &c. Deafness.
Sunstroke.—Paralysis, Blindness, Disease of Heart, Epilepsy, and Insanity.

Typhoid Fever.—Disease of Bowels, Stomach, &c.

Pneumonia.—Disease of Lungs, &c.

Constipation.—Hemorrhoids, Epilepsy and insanity.

Wounds and Injuries.—Rheumatism, Neuralgia, Blood Poisoning, Consumption, Paralysis, &c.

PENSION MONEY DUE DECEASED CLAIMANTS.

Where an applicant for pension dies leaving a widow, or child under 16 years of age at date of death, such widow or minor child (if no widow) can complete the pending claim and secure the arrears due to date of death. If no such widow or minor child, then any person who bore expenses of last illness and funeral can complete the claim and secure reimbursement. If claim is completed but not paid at date of applicants death, the money may be paid to the heirs or administrators of deceased, at the discretion of the Secretary of the Interior, under Act of March 1, 1889.

COMMUTATION MONEY FOR ARTIFICIAL LIMBS

can be obtained for Soldiers and Sailors who have lost limbs but prefer the money allowance for same. Soldiers ruptured are entitled to trusses from the Government.

SERVICE PENSIONS.

Revolutionary, 1812 and Mexican Wars.

Any Surviving Widow of a Revolutionary Soldier who served 14 days, or was in any battle during said War, is entitled to pension from March 9, 1878. All claims on behalf of relatives of such soldiers and widows are subject to the restrictions of Sec. 4742 R. S., which provides that "from and after April 2, 1862 no claim for pension, or increase of pension, shall be allowed when such soldier, or widow, died without having established a claim to a pension."

War of 1812 Service Pension. Under Act of February 14, 1871 all officers, enlisted and drafted men, Militia and Volunteers of the U. S. Military and Naval service, who served 60 days, or who were personally named in any Resolution of Congress for specific service in said War, and who were honorably discharged and were loyal to the U. S. during the Rebellion are entitled to pension from the date

of the Act. And the unmarried Widows of such soldiers and sailors, if married to the soldier *prior* to February 17, 1815, and loyal during the Rebellion, are entitled to Pension from February 14, 1871.

Under Act of March 9, 1878 a service of 14 days only, or in any engagement, without proof of loyalty during the Rebellion, entitles soldier to pension from March 9, 1878; and the unmarried widow of such soldier is entitled to pension from that date without regard to date of marriage or fact of loyalty during the Rebellion. From March 19, 1886 pension to widows under either of the foregoing Acts are increased from \$8 to \$12 a month.

Mexican War service Pension is due all officers and enlisted men, including marines, militia and volunteers, who served 60 days with the army or navy in Mexico, or on the Coasts or Frontiers thereof, or while *en route* thereto: or who were actually engaged in a Battle in said War, or mentioned in a Resolution of Congress for some specific service therein: *Provided*, such soldier is 62 years of age, or disabled for manual labor or dependent upon others for support.

The Widows of such soldiers are entitled to pension if 62 years of age, or dependent upon their own exertions for a support, or disabled.

The disability above referred to must not have been contracted while aiding the rebellion. The rate of pension is \$8. per month, commencing January 29, 1887.

In all of the foregoing cases, where actual service rendered was less than term of days specified, the soldier is entitled to a credit of one days service for each 20 miles of travel to and from place of muster.

These Service Pensions do not extend to children or other relatives.

Bounty Land Warrants of 160 Acres can be procured (when not already issued) for Soldiers and Sailors who served 14 days—or in any battle in any war of the U. S. which occurred *prior* to March 3, 1855. Where 40—80—or 120 acres, only, have been received the difference can be secured.

Widows of such soldiers can obtain what the soldier did not get, and children under 21 years of age on the 3rd day of March 1855 are entitled to what their parents failed to secure.

Re-married widows can obtain Bounty Land if a widow at time of application and issue of the Warrant. Duplicates of lost warrants can be procured. These pages are too

limited to go further into the Bounty Land Laws than to say that Soldiers of the late war are not entitled to Bounty Land Warrants, but only those are entitled who served as above stated.

PAY AND MISCELLANEOUS CLAIMS.

Pay of Officers and Soldiers. This subject to be fully stated, would of itself require a book at least five times the size of this one, so it must here be generally treated and not in detail.

Generally speaking all Officers Soldiers and Sailors are entitled to regular pay and allowances for every day of service, where they have not forfeited the same by desertion or absence without leave,—or under sentence of Court Martial: and where there is such a record against them, if corrected and removed (see page 33) all pay and allowances withheld for that reason can be recovered.

Arrears of Pay, in cases of deceased officers and soldiers are due to the Widow, Children, Fathers, Mothers, Brothers and Sisters, and Nephews and Nieces, in the order named: and in failure of such heirs, an administrator interested as a collateral heir or creditor can collect the amount due. This does not apply to Bounties.

Three Months Extra Pay allowed soldiers and sailors who actually served in the Mexican War and honorably discharged. Very few not paid.

Extra Pay is due Commissioned Officers who were in the Volunteer service on March 3, 1865, and remained until April 9, 1865. This is three months pay proper,—no allowances.

Heirs of all Commissioned Officers, who died in service between these dates (or subsequently without receiving the pay), are entitled, but *not* Administrators.

Extra Duty Pay of 40 cents per day allowed private soldiers, prior to March 3, 1863, when detailed for special service by competent authority for not less than 10 days continuous service.

PRISONERS OF WAR.

Private Soldiers are entitled to all pay and allowances, including commutation money for clothing and rations while prisoners of War, and to travel pay from place of confinement to place of enlistment, if not furnished in kind. Officers are not entitled to Commutation for Rations while Prisoners of War.

Difference of Pay is due to Commissioned Officers of late war for period of time between the *date* of *rank* as

mentioned in body of their Commissions and date of muster to such grade: *provided* a Re-muster can be obtained under the recent Acts of Congress providing for "re-muster and payment of such officers" under certain certain conditions. This entitles such officers to full pay and all allowances, including servant's pay, responsibility pay for commanding Company, &c. In many cases the "re-muster" entitles them to the "3 months extra pay proper" (recognizing them in service on or before March 3, 1865), and also to additional arrears of pension where the "re-muster" antedates the incurrence of their army disabilities for which pensioned as of a *lower rank*. Heirs are entitled to all the rights of deceased officers.

Claims for "Re-Muster" must be filed prior to June 4, 1892.

Travel Pay is due all Officers and Soldiers from place of enlistment (residence) to place of Muster, and from place of discharge to place of enlistment,—if transportation was not furnished by the Government—unless such transportation was declined by the soldier. Drafted men are entitled thereto.

Officers discharged upon Surgeon's Certificate are entitled to travel pay.

Substitutes for drafted men are entitled to all pay and allowances the principal would have received had he performed the service.

Officers in service between the dates of July 1, 1866 and March 2, 1867, are entitled to $33\frac{1}{3}$ per cent addition to their pay.

Army and Navy Longevity Pay.—Officers of the Army and Navy are credited with duty at West Point, and on receiving-ships and at Annapolis School, and with all service rendered as Volunteers and Regulars, in estimating Longevity Pay, and whether such service was continuous or otherwise.

Naval Claims.—Sailors and Marines and their heirs, are entitled to large amounts in way of retained pay, bounties for rebellion service, prize moneys, bag money, &c. They should state their full service to competent attorneys and secure an examination and settlement of their accounts.

Pay for Horses Lost in service can be secured by officers or soldiers—whether killed, died of disease, starved, abandoned, or captured by enemy. Heirs are entitled. These claims must be filed prior to August 14, 1891.

By a recent ruling, claims for horses lost by the militia

while serving with the United States forces can be collected. Heretofore disallowed because the owners had not been mustered in the United States service. Missouri State Militia &c, entitled.

The use of private horses by enlisted men was prohibited by Act of Congress approved June 20, 1864: a horse taken into the service after this date, by an enlisted man, is held to be without authority of law and at the owner's risk.

Horses *stolen* from Government Stables or Corrals are held not lost in service.

Payment for Use and Risk of horse after above date (June 20, 1864), at rate of 40 cents per day, discontinued at date upon which the notice of enactment of law reached the troops: no allowance after such date for use and risk.

INSTRUCTIONS TO CLAIMANTS.

The execution of Applications for Pension, Bounty etc. and other papers in such claims, is now governed by the following Act of Congress approved July 1, 1890.

Be it enacted, etc., That any and all affidavits and declarations to be hereafter made or used in any pension or bounty case, or in claims against the Government for back pay or arrears or increase of pension, or for quarterly vouchers, may be taken by any officer authorized to administer oaths for general purposes in the State, city or county where said officer resides. If such officer has a seal and uses it upon such paper no certificate of a county clerk, or prothonotary, or clerk of a court shall be necessary; but when no seal is used by the officer taking such affidavit, then a clerk of court of record, or a county or city clerk, shall affix his official seal thereto, and shall certify to the signature and official character of said officer.

Attorneys Fees, Established by Law or Regulations.

Fees payable after allowance of Claims:

Original Pension Claims, Fee \$10 to \$25; Increase and Restoration Claims, Fee \$10; Disability Pension, New Act, Fee \$10; Pay and Bounty Claims, Fee 10 per cent on \$200, and 5 per cent on excess; Lost Horse Claims, Fee 10 per cent; Commutation and Difference of pay Claims, Ration, Prize Money, etc., Fee 10 per cent.

Ordinary Fees Charged—Not Limited by Law.

Procuring Certificate of Honorable Service (Lost Discharge) \$3; Securing Correction of Records in Re-Muster and Desertion Cases \$10 to \$25.

Removal of Desertion Claims Must be filed prior to May 18, 1891.

Table of Pension Rates fixed by the Commissioner of Pensions
for certain disabilities not specified by law.

All enlisted men, except warrant officers.....	*8 00

UNDER OLD LAWS.

Pension is Due Widows and Minor Children at above rates and \$2 additional for each child.

Arrears from date of Soldier's Death can be obtained for widows and children.

Re-married Widows are entitled to pension from death of soldier to date of re-marriage.

Children under 16 years of age at date of soldier's death are entitled to arrears from date of death of soldier until they become 16 years of age, provided soldier's widow has not received it. Present age no bar to pension.

Dependent Mothers, Fathers, Brothers and Sisters are entitled to pension in the order named provided soldier left no widow or minor child surviving him.

*March 19, 1886 this rate for Widows, &c. changed to \$12. per month.

**BOUNTIES DUE SOLDIERS AND SAILORS, AND
THEIR HEIRS, UNDER EXISTING LAWS
AND DECISIONS.**

NOTE. The Acts of March 3, 1865, March 3, 1873, and opinion of Attorney General Devens of March 26, 1878 give colored soldiers (*including Slaves*) the same title to Pay, Bounty and allowances as white soldiers, and the following pages apply equally to White and Colored Soldiers and their heirs.

**BOUNTY MONEY IS NOT DUE TO SOLDIERS,
UNDER THE FOLLOWING CIRCUMSTANCES.**

1. For service as a Commissioned Officer for period *after promotion*.
2. For enlistment as a Volunteer *prior* to April 12, 1861.
3. For enlistment in the Regular Army *before* July 1, 1861.
4. For enlistment in the Marine Corps *prior* to July 1, 1864.
5. For enlistments *after* April 30, 1865.
6. To Ex-Confederate soldiers who were Prisoners of War and who enlisted in the six regiments of "United States Volunteers".
7. For 100 days, or three months, or less than six months enlistments. Upon such enlistments however if the soldier died while in the service and during such short term enlistment, his WIDOW, if living, is entitled to \$100. Bounty money: or, if she be dead, the CHILDREN of any such soldier are entitled to that amount. No other heirs are entitled.
8. Enlistments or re-enlistments in the Veteran Reserve Corps do not entitle to Bounty. But men transferred into the Veteran Reserve Corps from other regiments are entitled to the bounty they would have received in their old regiments for the continuous service.
9. Bounty is not due SAILORS for enlistments prior to February 24, 1864, unless they entered as substitutes for drafted men, for three years between March 3, 1863 and Sept. 5, 1864,—or were transferred from the army to the Navy. (See title—"Naval Bounties")

10. DESERTION from the Army or Navy forfeits Bounty. (See title "Removal of Desertion" page 33.)

Regular Pay and Allowances are due for every day of service rendered unless forfeited by Desertion.

BOUNTIES DUE VOLUNTEERS,

(UNLESS ALREADY RECEIVED.) BOUNTY ACT OF JULY 22, 1861.

1. All volunteers who enlisted under this act for a period not exceeding three years, nor less than six months, were entitled to \$100 bounty, provided they served for a period of two years or during the war (*i. e.*, were discharged after April 28, 1865, on account of services being no longer required); or on account of wound* received in the line of duty (if enlistment was for two years or more); or on account of wounds received in battle (if enlistment was for less than two years.) If discharged before serving two years, for any cause other than wounds received in battle or in line of duty, or on account of services being no longer required (*i. e.*, discharged before April 28, 1865), they are not entitled. Excluding exceptional organizations, this act applies to all volunteers who enlisted after April 11, 1861, and before December 24, 1863, or between April 2, 1864, and July 18, 1864.

If such enlistment is an old organization (*i. e.* a regiment already in the field) it would come under the following section.

2. All volunteer recruits who enlisted after October 23, 1863, and before December 24, 1863 for three years, in an organization already in the field, or who enlisted after December 23, 1863, and before April 2, 1864 for three years, were entitled to \$300 bounty payable in installments during the term of service as follows: \$60 in advance, and \$40 after each two, six, twelve, eighteen, twenty-four, and thirty-six months, respectively. If the soldier served his full term, or was discharged prior thereto by reason of wounds, or under any of the General Orders for the reduction of the Army because of termination of the war, he was entitled to the full amount, and generally received it on final payment at muster-out.

*NOTE.—See Section 10—"Discharge for Wounds."

If discharged by reason of disease, or by way of favor, or to accept promotion, he was entitled only to the accrued installments actually due him at the time of his discharge. No additional bounty is due in such case under any law passed since soldier was discharged.

NOTE.—General Order No. 77, War Department, A. G. O., April 28, 1865, was the *first* order issued by the War Department discharging men by reason of close of the war.

BOUNTY TO DRAFTED MEN.

3. Drafted men enrolled to serve for three years, or men who enlisted for three years as substitutes for drafted men are entitled by Act of March 3, 1863, to \$100 bounty, if they served two years or more, or were discharged by reason of wounds received in line of duty before two years service. No bounty is due them or their heirs for such service under any other act. Drafted men or substitutes enrolled to serve for a period less than three years are not entitled to any bounty.

BOUNTY ACT OF APRIL 22, 1872.

4. All volunteers who enlisted after April 11, 1861, and before July 22, 1861, for three years, and who were mustered into the United States service for three years, and who were discharged before serving two years, for cause other than wounds received in line of duty are entitled, by Act of April 22, 1872, and decisions thereon to \$100 bounty, provided they have not already received it for such service. This bounty cannot be allowed for enlistments in Regular Army nor to volunteers who enlisted after July 21, 1861, nor for any other period than three years, nor to volunteers who served two years or more as enlisted men, nor to the heirs of those who died in the service, as such cases are specially provided for in other bounty laws mentioned herein. Where soldier was entitled to this bounty, and died without having received it his heirs may apply; or if soldier, enrolled as aforesaid, was DISCHARGED FOR PROMOTION before he had served two years as an enlisted man, application can now be made for this bounty.

VETERAN BOUNTY.

5. Soldiers who were discharged after nine months' Army service, either in last war or prior thereto, as volunteers, drafted men, or substitutes, or as Regular Army men were permitted to become veterans, provided they re-enlisted prior to April 2, 1864, as volunteers for three years, under the provisions of General Order, No. 191, A. G. O., of June 25, 1863. If they were discharged to re-enlist into the same regiment, they must have previously served two years to become entitled to re-enlist as veterans, and were usually paid at their re-enlistment all bounty due them for first service. As veterans, so mustered, they were entitled to \$400 bounty, payable in installments during the term of service, as follows: Advance \$25 (or \$60 after September 28, 1863); and \$50 after each two, six, twelve, eighteen, twenty-four, and thirty months, and the balance at the expiration of term of service, under the same provisions and restrictions as previously set forth in section 2, above. Veteran bounty can not be allowed for enlistments or re-enlistments made after April 1, 1864, nor for any service as commissioned officers.

6. All non-commissioned officers mustered out after April 28, 1865, as supernumeraries on consolidation of their companies are regarded as mustered out because their services were no longer required, and are entitled to full bounty.

BOUNTIES TO HEIRS.

7. If a soldier died in the service, his heirs became entitled to any bounty which the soldier would have been entitled to under the terms of his contract. The order of heirship and payment is, first, to the widow; second to the children; third, to the father, if he has not abandoned the support of his family; fourth to the mother; and lastly to the brothers and sisters of the whole and half blood in equal shares. If the father, mother, or more remote heirs of a deceased soldier were not residents of the United States at the date of soldiers death, they would only be entitled to such

installments of bounty as had accrued and remained unpaid at the time of his death. These rules of descent and heirship are varied in the following Act.

BOUNTY ACT OF JULY 4 1864.

8. Volunteers who enlisted after July 17, 1864, and before May 1, 1865, for one, two, or three years, were, under Act July 4, 1864, promised a bounty of \$100 for one years' service, \$200 for two years' service, and \$300 for three years' service, unless sooner discharged.

This bounty was payable in three equal installments as follows: One-third of the amount on muster-in; one third at the expiration of half the term of enlistment; and the balance at the expiration of the full term of enlistment. To become entitled to all the installments of bounty under this act, the soldier must have served out the full term of his enlistment, or have been mustered out with his company or regiment by reason of expiration of term of service, or discharged because of wounds received in line of duty. If discharged before the expiration of his full term of enlistment, because of "services no longer required" or by "close of war," he would only be entitled to the installments which had actually accrued during his service and remained unpaid at date of such discharge which bounty he generally received with his pay at muster out. Where a soldier, who was entitled to bounty under this act, died in the service, or afterwards without having received it, is allowed only to his widow, children or mother—if she was a widow at the date of soldier's death. If there be no such heirs, his other heirs, if any, can only claim the installments of this bounty actually earned by, an unpaid soldier at date of his death. No additional bounty is due for the services of these soldiers under any act passed since their discharge. This bounty cannot be allowed for service as drafted men or substitutes.

The members of the first Corps, United States Veteran Volunteers (Hancock's Corps), who enlisted after July 17, 1864, and before January 2, 1865, were paid \$300 extra in advance in addition to the above bounty. If they enlisted after January 1, 1865, they were not entitled to this extra bounty.

BOUNTIES TO REGULARS.

9. Soldiers who enlisted in the Regular Army between July 1, 1861, and June 25, 1863, were entitled to \$100 bounty, under the same conditions as volunteers.

All men enlisting into the Regular Army for five years, within ninety days from June 25, 1863, (the date of General Order, No. 190, A. G. O.), were entitled to a bounty of \$400, payable in installments as cited in section 5, above.

All soldiers who enlisted or re-enlisted into the Regular Army for three years, under Joint Resolution of January 13, 1864, and General order No. 25, are entitled to \$400 bounty. By act of June 20, 1864, regulars serving under the enlistments made prior to July 22, 1861, and re-enlisting between June 20, 1864, and August 1, 1864, under this act, into their old regiments for three years, are also entitled to \$400 bounty, payable in installments.

Soldiers who enlisted into the Regular Army after July 17, 1864, and before July 1, 1865, were entitled to bounty under Act July 4, 1864, on the same terms as volunteers enlisted under that Act. See Section (8.)

DISCHARGED FOR WOUNDS OR INJURIES.

10. All soldiers discharged by reason of wounds received in battle, or in line of duty, are entitled by Acts of March 3, 1863, March 3, 1865, and Joint Resolution of April 12, 1866, to receive the same bounty they would have received if they had served their full term of enlistment.

The word *wound*, as used in the foregoing, is to be understood in the sense of injury, hurt, damage, as contradistinguished from disease or sickness. The bounty can only be allowed when the soldier was actually discharged by reason of the wound, as aforesaid.

Where soldier contracted rupture or hernia, or was sun-struck, or by reason of a positive injury incurred varicose veins, for which discharged, bounty is now held to be due. And in cases when the soldier was

entitled to discharge by reason of any such injury, and was erroneously discharged as for disease, the record can be corrected and the Bounty money secured.

ACT OF JULY 28, 1866—ADDITIONAL BOUNTY.

11. The time for filing claims under the act of July 28, 1866, known as the "Additional Bounty Act" expired July 1, 1880. Claims under that act, not filed prior to that date cannot be prosecuted without further legislation by Congress extending the time for filing.

There are however, thousands of cases which were filed prior to that date, and rejected for reasons which were at the time proper under the then prevailing practice,—but which could now be re-opened and successfully prosecuted. By carefully reading Section 14—(Rejected and abandoned Cases)—any person who filed a claim for additional Bounty prior to July 1, 1880, which has not been paid, can readily judge as to whether he has now a valid claim.

The following are the provisions of said Act and still applicable to all claims thereunder filed prior to July 1, 1880.

Soldiers who enlisted for not less than THREE YEARS from April 19 1861, to October 24, 1863; from October 24, 1863, to December 24, 1863, in new organizations; from April 1, 1864, to July 18, 1864, and have been honorably discharged by reason of expiration of term, by reason of services being no longer required, or wounds or injuries received in line of duty and who received or were entitled to receive no greater bounty than one hundred dollars, under previous laws, are entitled to one hundred dollars bounty.

Soldiers who enlisted for not less than TWO YEARS, between above named dates and have been honorably discharged after serving TWO YEARS are entitled to fifty dollars bounty, under the above stated conditions.

HEIRS.

In case of soldier's death while in service, or subsequent to discharge, and prior to July 28, 1866, by

reason of wounds or disease contracted in service, this bounty becomes payable in the following order :

First to the widow if not remarried prior to July 28, 1866; second to the children who were minors July 28, 1866: third to the parents jointly or surviving parent, if resident in the United States July 20, 1866.

In case of soldier's death after he becomes entitled, or of the death of any heir entitled as above, this bounty becomes payable to the heirs or remaining heirs in the order named :

First to the widow, if not remarried prior to February 21, 1868; second, to the children, if minors February 21, 1868; third to the parents or surviving parent if resident in the United States February 21, 1868.

In case of a soldier's death, who if living would be entitled under the law, this bounty is payable to the heirs in order named, as follows :

First to the widow, if not remarried prior to March 3, 1869; second, to the children, if minors March 3, 1869; third to the parents or surviving parent, if resident in the United States March 3, 1869.

NAVAL BOUNTIES.

12. Sailors who enlisted between the 3d of March, 1863, and Sept. 5, 1864, as substitutes for drafted men for three years, are entitled to a bounty of \$100 after two years service, or if sooner discharged, on account of wounds or injury received in line of duty.—Ruling of the Second Comptroller under Act March 3, 1873.

Seamen and ordinary seamen, who enlisted between February 24th and June 30th, 1864 are entitled to a bounty of three months' pay of their respective grades—Joint Resolution of Congress, of February 24, 1866.

Under the Act of July 1, 1864, volunteers in the navy or marine corps who enlisted after July 1st, 1864, and prior to July 1, 1865, are entitled to \$100 for each years' enlistment, payable in installments, $\frac{1}{3}$ at enlistment, $\frac{1}{3}$ at expiration of term of service, and the balance at expiration of the term. Under a decision of the Secretary of the Navy, acquiesced in by the Second Comptroller, the third installment was paid in cases where men were peremptorily discharged

before the expiration of term of enlistment for the reason that their services were no longer required, provided it was not more than three months from the date of expiration of the term of enlistment. If discharged for wounds, accrued instalments of bounty only were paid.

Heirs are entitled to Naval bounty.

REMOVAL OF CHARGE OF DESERTION.

13. A removal of charge of Desertion can be obtained, and Pension and Bounty after such removal, under following state of facts :

1. If soldier served until the expiration of his term of enlistment, or until May 1, 1865, although absent from his command at the time it was mustered out, he failing to be mustered out or receive an honorable discharge, or if prevented from completing his term of enlistment because of wounds, injuries, or disease contracted in line of duty.

2. When the soldier voluntarily returned to his command and served his term or until discharged.

3. Or, if he died from wounds, injuries, or disease contracted in the service while absent from his command.

4. Or if he joined the United States Army, Navy, or Marine Corps without having received a discharge from a previous service, if such re-enlistment was within four months from the time he absented himself from the first service and was not made for a higher bounty than previously entitled to.

5. If the soldier, regular or volunteer, was restored to duty or suffered to resume his place in the ranks of his command, thereafter serving faithfully, all disabilities because of such desertion to be removed by the Secretary of War.

6. A Certificate of Discharge to be issued in all cases where the charge of desertion shall be removed, and can be procured by the soldier's heirs. Also all pay and bounty which may be found due to such soldier, except for the period while absent without proper authority, can be secured.

7. Where a soldier violated the 22nd (now the 50th) Article of War, by re-enlisting in a second command without being regularly discharged from the first service, the record of desertion cannot be removed if he left his command while the same was in the presence of the enemy, or while he himself was in arrest or under charges, or if he remained out of service longer than four months, unless he was wounded or sick at the time of leaving; nor if the second enlistment was for the purpose of obtaining Bounty Money or other gratuity.

8. Generally speaking, any erroneous or incomplete War Record, whether of Desertion or other matter, may be amended, corrected and completed upon the filing of competent proof conclusively showing the error or omission and establishing the actual facts.

RECORD OF DESERTION IN THE WAR WITH MEXICO CAN BE REMOVED.

9. If the soldier served his term of enlistment, or having served six months, left his command subsequent to July 4, 1848, without having received a discharge; upon removal of the charge of desertion, an honorable discharge will be issued, while he or his widow shall be entitled to the same rights as other honorably discharged soldiers as to pension and Bounty-Land.

NAVY AND MARINE CORPS DESERTION CASES.

10. Any appointed or enlisted man who served six months during the last War in the Navy or Marine Corps who is charged with desertion can have the charge removed upon the following conditions, viz:

¹ If the Desertion did not occur until his term had actually expired, or after May 1, 1865.

² Or, if he voluntarily returned within a reasonable time and received a proper discharge.

³ Or, if prevented from completing his term of service by reason of wounds or disease contracted in the line of duty, and left without receiving a proper discharge.

⁴ Or, if he left a Station or Vessel without being discharged and re-enlisted within four months, without improper motives.

⁵ Or, if he died from wounds, injury or disease contracted in the service.

REJECTED AND ABANDONED BOUNTY CASES.

14. The following brief summary sets forth the principal

classes of rejected and abandoned Bounty claims which can now be re-opened and successfully prosecuted.

¹ All claims suspended or rejected because of Record of desertion against soldier, wherein the charge can be removed under provisions of Sec. 13 above.

A court martial, or serving a sentence, does not subject the soldier to the penalty of desertion in denying him bounty, or arrears, except while absent without leave.

Hundreds have been denied Bounty because of the charge, yet suffered the penalty, or were taken up on the rolls when they returned: all such can now renew applications.

² All claims rejected because of soldier having been discharged for hernia, sun-stroke, rupture, accidental injury or frost bite, prior to two years service. These disabilities were heretofore regarded as diseases, but now, under recent rulings are classed as "injuries".

A great many Additional Bounty Claims under Act of July 28, 1866, filed prior to July 1, 1880, were rejected because of soldier's discharge for above named disabilities: these cases can now be re-opened and adjudicated.

³ All rejected cases under Act of April 22, 1872, where soldier enlisted *prior* to July 22, 1861 but was not mustered until *after* August 6, 1861 and Bounty was refused upon that ground, can now be renewed.

⁴ In all cases where soldiers discharge reads "for close of war" and instalments of Bounty refused because "full term not served," Bounty can now be secured.

⁵ COMMISSIONED OFFICERS who enlisted prior to July 22, 1861 for three years but were discharged for promotion prior to two years service are now entitled to \$100. bounty; and are entitled to \$100. if enlisted after July 21, 1861 and served two years prior to promotion, and to \$50. additional Bounty if they had an application therefore on file prior to July 1, 1880. Rejected cases of this kind can now be successfully prosecuted.

⁶ Claims of *colored soldiers* and their heirs for original bounties, heretofore rejected for reason that such soldiers were borne on rolls as *slaves*, can now be re-opened and adjusted.

⁷ Widows of soldiers who were killed, or died in the service, and who only received \$75.00 original bounty, the remaining \$25.00 being withheld because a similar sum had been paid to soldier at date of his enlistment, can make claim for payment of said \$25.

⁸ In all cases where Bounty claims have been rejected because of failure to furnish testimony, correct service, or

for any other cause, the claims can be renewed by supplying the required proofs and information.

There are constant changes in decisions and rulings under which a rejected case of to-day may be good to-morrow.

To show we are actively and successfully engaged in prosecuting Soldiers' Claims we refer to the following Clients of ours for whom we have recently secured Original Pensions with arrears, Restoration to Rolls, Re-rating, and Increase of Pension.

(Recollect these are only a few cases of nearly 50,000 similar allowances.)
