ADDRESS

Not necessary to cut coupon if you mention Times 12-18.

One of Ten Thousand Educational Pictures THE TERRIBLE ENEMY THAT LIES HIDDEN IN THE SEA

Here we see the crew of a submarine firing a torpedo capable of sinking a battleship which has cost, perhaps, Ten Million Dollars. The ship on the waves is seen through the lens of the wonderful eye called the Periscope, which reflects the ship above down the tube on to the table below.

FASCINATING FACTS ENTERTAINING WORK CONSTRUCTIVE PLAY

The one day in all the year which belongs to the children is Christmas Day. In this year of 1914, instead of toys and trinkets which last only a few hours or a few days, let us give them something which will be a permanent good as well as a present delight. THE BOOK OF KNOWLEDGE is the supreme gift for the child. Hundreds of families in New York City alone will purchase this wonderful work for the home this Christmas. YOU can hardly afford to do without it if there are children in your household between the ages of six and eighteen. These are the years of greatest need, when the child's habits of thinking and reading and the choice of a career are being determined. Do not send your child out into the battle of life only half equipped if you wish him to be one of those who succeed. Make this Christmas memorable by adding THE BOOK OF KNOWLEDGE to the life of the home. It will delight the grown-ups as much as it does the children, and will prove a lasting benefit and blessing to your home.

Sold Only by THE GROLIER SOCIETY, 2 WEST 45th ST., NEW YORK

**Answers Every Question
A Child Can Ask**

Why is the sea never still?
Why are the rain drops round?
What is the use of our hair?
Do we think in words?
How far off is the sky?
What makes the heart beat?
What is the milky way?
Why do we go to sleep?
What makes a cat purr?
Why does the kettle sing?

And Thousands of Others

**THE FOREMOST EDUCATOR IN
THIS COUNTRY SAYS:**

"Suppose a boy of ten were to spend fifteen minutes a day reading these pages of THE BOOK OF KNOWLEDGE. He would at thirteen know more about the earth and life on it than the wisest man knew a few generations ago."

**PROF. DANIEL W. LA RUE,
State Normal School, Penna., and Harvard
University Summer School.**

"Let me say that a search through the market has convinced me that this work so far outmeasures all similar attempts as to leave no room for choice. Not only are these books a microcosm of educational material, but they obey the prime law of juvenile education: they are INTERESTING! But there is a further virtue of great importance, that of psychological arrangement."

**LOUISE H. HAESELER,
President Philadelphia Teachers'
Association.**

"One of the most difficult tasks that a teacher has to perform is to induce her pupils to secure in an intelligent way information upon an assigned topic for themselves, and the chief cause of the difficulty is the fact that reference books as a rule are written for grown-up people. THE BOOK OF KNOWLEDGE supplies accurate information upon practically every assignable topic in a way that not only arouses the interest of children but also inspires them to continue reading and to proceed from one subject to another."

**Parfums
D'Orsay**

Fashionable Jewelry.

The Christmas gift that is a treasured possession

Many New Yorkers look to the Gattle collection for the earliest and most interesting developments in fashionable jewelry.

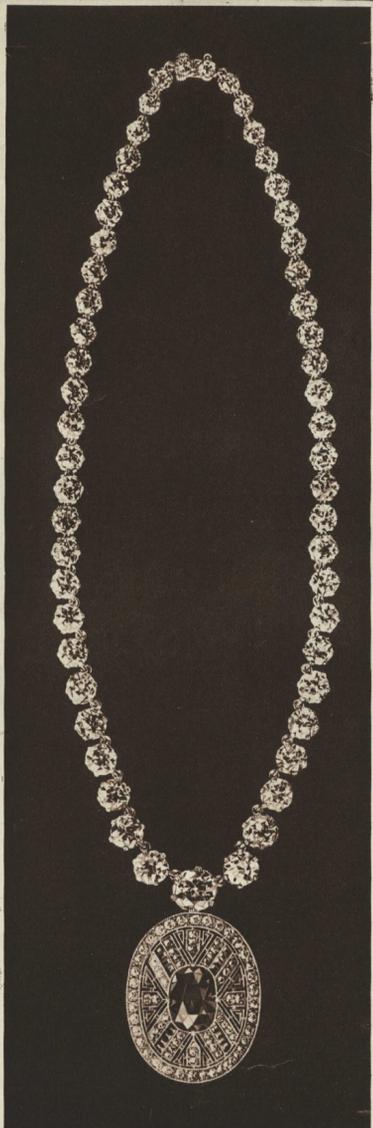

In the designing of this jewelry especial stress is placed on the need for newness and individuality.

In addition to its style, each piece in the Gattle collection is distinguished for harmony of composition, for the delicacy of its execution and for vital artistic interest.

We invite comparison of values.
