THE NEW EDISON PHONOGRAPH

Is now Fittingly Encased in Beautiful Specimens
of PERIOD FURNITURE

It is a natural part of the fulfillment of high ideals that the instrument, which is the supreme development of the genius of Thomas A. Edison, should demand that it be encased in the finest procurable specimens of the cabinet-making art.

For this important work, Mr. Edison's representative sought America's foremost art furniture designers, so that his musical masterpiece—the Edison Diamond Disc Phonograph—the Re-Creator of Music—might be worthily encased to be welcomed into America's most elegant and most artistically furnished homes.

The illustrations on this page can do scant justice to the rich woods, the subtle carvings, the intricate inlays and even the graceful lines of the exterior forms. Yet, superb as are the classic habiliments of these most beautiful of all musical instruments, they are far transcended by the SOUL that lives within each of them—the magical instrument that will, at a touch RE-CREATE the musical masterpieces of the ages, for the entertainment and inspiration of those with whom these royal instruments shall live. Prices up to \$6,000.00.

You are cordially invited to see the instruments themselves, in our display rooms, on Fifth Avenue.

THE EDISON SHOP

473 Fifth Avenue, New York (The Phonograph Corporation of Manhattan, Proprietors) Opposite the Public Library
