WHEN the leaves have fallen, does your garden lose its charm? Would you like a garden you can enjoy all winter? A winter garden is a quiet, restful place, a pine and fir-scented place, a place illuminated by the white bark of the Birch and the red berries of the Holly, a place where the birds twitter their appreciation of the shelter from the cold wind, where the warmth and glow of the sun is reflected and where the environment is happy and cheerful when the days are dull and depressing. You admire the beauty of the pines. Possibly you are not acquainted with our big Firs and Spruces. They are real beauties. When nature has wrought her worst havoc with snow and sleet, their beauty is only intensified as they bend fantastically under their icy load and glisten with crystal drapery. Come and study them. You will enthuse over their rare beauty and be glad to add it to your landscape. While you are here we will show you many rare plants that you can weave in. Then there are the brilliant, berried shrubs as Black Alder, High-bush Cranberry, and Barberry, and bulbs which are apt to smile anytime during warm spells, as Winter Aconite, Crocus, Snowdrop, Adonis, Narcissus, and Helleborus. Why not arrange for a winter garden? We shall be glad to go into details with you or your landscape architect. We guarantee rare beauty during a period that is otherwise desolate. Write us today, or phone or visit us tomorrow.

Don't Chase Dirt—Collect It!

The Liberty Vacuum Cleaner does not chase dirt nor scatter it around from place to place. It collects it—gets it all—and puts it out of the way. It has all the merits of the old-fashioned carpet sweeper and vacuum cleaner combined. It's two in one. It pulls the dust and dirt away and also picks up every bit of foreign substance—even threads and hair and lint.

The Liberty Cleaner
(An Electric Vacuum Cleaner and Sweeper Combined)

The Liberty is different. It stands on four wheels and is so easy to run a child can operate it. Weighs but 10 lbs.; costs less than a cent an hour to operate. Casing, polished solid aluminum castings. Motor made by General Electric Co. Sold on the easiest of easy terms. Phone us to call and demonstrate.

The Rich Soft Glow

that you associate with a luxuriously furnished room—the soft-toned lighting that creates an atmosphere of subtle good taste—can be bestowed upon your living-room or music-room by a "single touch," as if by a magic wand, by the new Eye-Comfort Art-Lamp (table, floor or piano). How you will enjoy the bewildered faces of your guests when you pull the chain, the room is instantly filled with a suffused glow of enchanting light, and they look vainly in the corners of the ceiling for the hidden source of the strangely beautiful illumination!
