The right way to shampoo

How this treatment helps your hair

The whole beauty and lustre of your hair depends upon your scalp. Here the hair forms. Here the network of blood vessels feed and nourish the roots. Here lie the color-supply pigment cells. Here thousands of tiny fat glands supply oil to give life and lustre to your hair.

This is why caring for your hair is, in reality, exactly the same as caring for your skin.

To keep your scalp healthy and vigorous, use the following treatment as a regular shampoo: Before shampooing, rub the scalp thoroughly with the tips of the fingers (not the finger nails) making the scalp itself move in little circles. This loosens the dead cells and particles of dust and dandruff that clog up the pores.

Now dip the hair in warm water, separate it into small parts and scrub the scalp with a tooth-brush lathered with Woodbury's Facial Soap. Rub the lather in well, then rinse it out.

Next apply a thick, hot lather of Woodbury's Facial Soap, and leave it on for two or three minutes. Clear it off with fresh, warm

water, finishing with cold water. Dry very thoroughly. Get a cake today and have your first shampoo with Woodbury's. You will enjoy the healthy, active feeling it gives your scalp. You will soon see the improvement in your hair—how much richer and softer it is.

A 25 cent cake will give you ten or twelve shampoos or will last for a month or six weeks' general use. Woodbury's is for sale at drug stores and toilet goods counters everywhere throughout the United States and Canada.

Write today for a week's size cake

For 6c we will send you a trial size cake of Woodbury's Facial Soap large enough to last for a week, together with the booklet, "A Skin You Love to Touch," giving the famous Woodbury skin and scalp treatments. Or for 15c we will send, in addition, samples of Woodbury's Facial Powder, Facial Cream and Cold Cream.
