The Reason for THE NAME

An explanation is due the public regarding the use of the words "Sample Shoe Co." in our firm name. The fact is that we inherited the title years ago before there was any suspicion attached to the term. We have perpetuated it by reason of pride as well as policy.

This letter to The Tribune is self-explanatory:

"The Tribune, New York.
 "Regarding our use of the term 'Sample Shoe Co.'
 "This firm was established by the late Leon M. Hirsch, in the Hoe Building, on Grand Street. He was the first man to open a sample shoe business in New York, and for many years conducted a legitimate business in this line on a strictly legitimate basis. The present business is a continuation of the old firm as established by Mr. Hirsch in its present quarters during his lifetime. It is now a corporation, composed of members of his family. A great many concerns make fraudulent use of the term 'sample shoes.' I thank you for your effort in the public interest in the exposure of such 'sharp practices.'
 "No such implications can apply to this house. This is a legitimate business.
 "Yours very truly,
 "L. M. Hirsch Sample Shoe Co."

 PRESIDENT.

The weather outside does not feel very Spring-like. But in my sales parlor and work rooms the whole atmosphere is that of Spring, as COLE Styles for Spring are being created.

We are working with enthusiasm and with the conviction that our efforts in evolving distinctive Spring Styles for 1916 will bring us the approval and custom of the best dressed women in New York.

Just as they approved COLE Styles last Fall and gave us the greatest volume of business we ever had. It is a hard struggle to keep at the top in creating styles, but it is worth while. What satisfaction is there in being mediocre?

The Dining Car Refrigerator

Just think of the Refrigerator in the kitchen of a Dining Car, with its Sides almost touching the range! A temperature of 100° is frequent, yet all kinds of foods must be kept in that refrigerator, and kept cold and fresh and free from cooking odors of the cramped little kitchen.

You know the excellence of the Dining Car menu, but do you know that it is largely due to the

BOHN SYPHON REFRIGERATOR

which is installed in practically every dining car in this country to-day? It is the Siphon System of rapidly circulating pure, cold, dry air, which enables the Bohn Refrigerator to maintain a uniform temperature of 40°, and the Bohn "Flaxinium," the greatest heat-resisting insulation ever constructed, that have caused the railroads of this country, almost without exception, to adopt the Bohn Siphon for their dining and refrigerator cars. Does this mean anything? Call and see our large line, in both wood and white porcelain casings. Some of the best styles, including the one illustrated above, are now marked at attractive prices. We can sell you a Bohn from \$16 up. If you cannot call, write for our handsome catalog. We are the mfrs., not middlemen.
