

Two
Karagheusian EXHIBITION RUGS
 on view this week

Limited number of Reproductions available at the price of Good WILTONS

IT HAS been arranged for these exhibition fabrics to be displayed in New York and Brooklyn during tomorrow, Tuesday and Wednesday, and possibly a little longer. They may be seen at most of the high-class furniture and department stores.

THE BARBIZON LANDSCAPE Rug has not been visible to the public prior to this, only a few professional connoisseurs having had the opportunity to see it at a private view.

Suffice it to say that the native Oriental spirit of the House of Karagheusian has never achieved anything finer than this

Herati Rug and its fellow chef-d'oeuvre, the CHINESE RENAISSANCE Rug.

The amazing thought is that they are Wiltons!—*machine-woven*, and yet the antique skill of the Orient is there, all brave with lustrous color and genius-encaptured design.

The designs of both rugs are non-re-

peating, and rich with an *unusually large number of different colors*. This absolutely forbids rapidity of manufacture and limits the number available at present.

Orders by mail or telegram direct to us will be forwarded to the nearest store in your vicinity. *They cannot be given priority over the requirements of personal shoppers.*
