

Two Blessings for the Modern Housekeeper

Washing clothes and cleaning house-- the two back-breaking bugbears of old-time housekeeping--have become history.

The wooden washboard and straw broom will soon be placed with the spinning wheel in the gallery of American antiques.

Thanks to electricity, the 20th Century Geni of Service, housekeeping is now largely a well organized profession of mechanics.

The Easy Vacuum Electric Washer has reduced the time of doing the family washing to a matter of minutes.

In it your daintiest laces, lingerie and linens are cleansed perfectly without the slightest injury.

And your heaviest bath mats, rag rugs, blankets and couch covers are just as easily and thoroughly washed without damage or effort.

The Easy Vacuum Electric Washer does not rub, drag, jerk or tumble the clothes--it cleanses by a more scientific and efficient method.

Two vacuum cups move up and down, forcing the hot, soapy water through the mesh of the fabric with as much ease as water passes through a sieve, cleaning without wearing.

It has proved by every test the ideal washer, best adapted to the all-around needs of the American home.

The America Electric Vacuum Cleaner is a highly efficient, moderately priced household help.

Substantially constructed to withstand hard knocks and contains many valuable special features which distinguish it from all other electric cleaners.

Gets the lint, gets the threads, gets the dirt through the most powerful suction mechanism of any portable cleaner.

Its divided, spiral brush does not clog up with strings and other refuse.

Has a convenient trip lever by which the motor is started and stopped by the foot.

All electric connections are within the motor housing, free from dirt and out of the way.

Non-shock enameled wood handle has a restful grip and can be fastened at any convenient angle.

You will be delighted with the results obtained by the patented America features.

EASY *Vacuum Electric* WASHER

Manufactured by Syracuse Washer Corporation, Syracuse, N. Y.

Don't fail to see these two blessings for the modern housekeeper at the Electrical Show, Spaces 57 and 58, and while in the neighborhood visit our display rooms--only a few blocks from Grand Central Palace
