

Three of the world's most beautiful and perfect 36's who have no prospects of a future in either the Follies or the Winter Garden. They'll never know a stage door Johnnie, a taxi or a bird and a bottle. They toil not, neither do they spin—they're deaf, dumb and blind. Not mummies, just dummies—made to measure out of wax and they spend their inanimate days exhibiting the latest creations of Paris' most exclusive modistes.

Mirsoff.

This lucky little lass is the daughter of a demobilized aviator of the R. A. F. and an airplane which her daddy made from thin sheets of metal is quite the latest thing in tricycles. Get busy before Christmas, you ex-aviators, and make one for the kiddies of your family.

ONE of the first things an American does when he reaches London, is to buy an Aquascutum. It is next in importance to Westminster Abbey and the Tower! And it is a greater coat this year than ever before, more alluring in the facility of its lines, more engaging in the felicity of its colorings, all the characteristic English ease in the one, all the heather hues of moorland and highland in the other.

Single and double breasted models for all occasions, weights for all weathers, in the greatest variety of fabrics and colorings that we have ever before imported, at prices that are in sharp contrast to the rising cost of fine clothes.
