*The Notes of A Bird  
The Tone of A Piano*

There is much that patient effort may accomplish. Few know that a lifetime of painstaking care has made it possible for one man, a great bird lover, to improve, to enlarge and to ennoble the notes of the singing birds.

And a lifetime of study has enabled the family of Sohmer to develop a piano with a tone so rare that it is today recognized as the masterpiece among pianos for the expression of song.

When you put your money into a Sohmer you receive an instrument which will retain its remarkable qualities as long as you live and probably as long as your children live after you. When length of service is considered, the Sohmer is the most economical piano to own.

Send a postal today for Illustrated Catalog and Full Particulars. State whether interested in Pianos or Player Pianos.

**Why Not Always Be Trim and Stylish?**

TO be fat is unnecessary. It is also unbecoming and unfashionable. By wearing one of my rubber garments a few hours each day you can absolutely remove your superfluous flesh. This is accomplished by perspiration—the safe and quick way to reduce. Do not think for a moment that these garments are warm—they are cool and comfortable. They are invaluable to those suffering from rheumatism and are recommended by leading physicians.

**The "Silhouette"**

Made in U. S. A. At All Good Shops.

TWO dainty, woven flowers shadowed against either cheek give this attractive veil its name. The "Silhouette" is extremely chic and becoming. Its dark flowers make the face more fair by contrast, while the softness of its mesh gives the face a more youthful appearance. Comes in colors and various patterns.
