## 250,000 Words at One Filling

With the rest of the writing world, New Yorkers have found a new writing comfort in Eversharp, the pencil that holds the record for long distance writing.

Every Eversharp holds the twelve leads pictured above, actual size. Eighteen inches in all. Many months' supply. Enough for a quarter million words. Ten thousand words one cent!

No whittling or wasted lead. Every particle of lead is used in actual writing. And there's a point for every word, for Eversharp is always sharp—never sharpened!

Eversharp Leads, in various degrees of hardness, have a fineness, firmness and smoothness all their own. They come in their own Eversharp lead box, recognized by the Eversharp trade mark on the seal. Look for it.

Like the leads, Eversharp is good all through. That is why you see Eversharp everywhere—in the club, at the office, on the train, in the hands of both rising young men and professional men who have long made their mark.

Whether your Eversharp is selected for the pocket, chain, or lady's handbag, its beauty and efficiency are always the same. Eversharp is a recognized symbol of good taste and good writing everywhere.

Get your Eversharp now for real writing comfort and economy. Prices as low as \$1. Eversharp is as easy to buy as it is to use, for it is sold at better dealers everywhere.
