Strength—color—shape

THE test of a silk glove is in the washing. If your silk gloves get thin, turn yellow, stretch and become baggy, or shrink after washing, they are not all that a silk glove can be.
Made of pure "unweighted" silk, Kayser Silk Gloves will neither stretch nor shrink. Perfectly shaped and carefully finished, they retain their original lustre and grace. Even after repeated washings, they still fit perfectly over the back and palm and around the wrist. Follow washing directions carefully.
Look for the name "Kayser" in the hem of every glove you buy. **JULIUS KAYSER & CO.** New York.
