

Hints for Household Equipment.

AN ACCURATE SCALE SUITABLE FOR KITCHEN USE.—The Chatillon Red Scale, made by John Chatillon & Sons, 37 Cliff Street, New York, is a spring balance scale approved by the New York City Department of Weights and Measures, and our own testing proves its accuracy in weighing. In the center of the dial is a red disk encircled with a broad white border, on which the ounces and fractional pounds and graduations are clearly defined. The scale is made in a number of styles and ranging from ten to twenty pounds capacity by one-half to one ounce divisions. The pan of the scale illustrated can be turned in a vertical position and hung against the wall when not in use. Price \$2.99 to \$2.99.

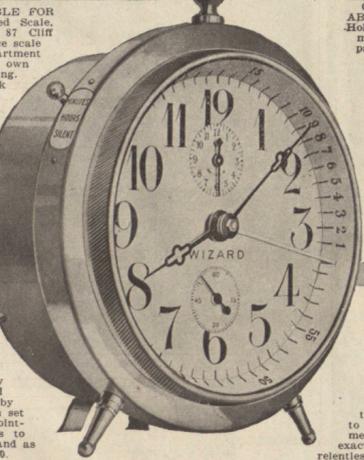

AN EFFICIENT POT AND PAN CLEANER.—The Mystic Mit, made by the Mystic Mit Co., 127 Duane St., N. Y., may be mystic in its origin, but is most practical in its usefulness. It will clean anything that is cleanable from pots and kettles to the kitchen table, and is safe on almost any surface except either fine enamel or aluminum. It is simply a pot cleaner made to be slipped over the hand, and its component parts are soft white twine twisted in with fine copper strands and so woven that all the abrasive qualities are on the outside. Price 10 cents.

CONVENIENTLY SUPPLIES AN ABUNDANCE OF HOT WATER.—The Holyoke Kerosene Tank Water Heater, made by the Holyoke Heater Company, Holyoke, Mass., can be attached to the ordinary boiler or tank of any circulating water system. It is simple to connect and is especially useful in country houses where gas is not available. Kerosene is the fuel used, and the shell of the heater, the coils and the blue flame burner are assembled in one unit. By accurate test this useful contrivance heated the contents of a thirty gallon boiler to an average temperature of 140 degrees Fahrenheit in two and one-half hours, consuming two-thirds of a pint of oil each hour. This would mean an abundance of hot water for domestic use at a reasonable expense. Price \$20.

PREVENTS OVERCOOKED 24-Hour Wizard Alarm Clock. Co. 18 Broadway, New York. set to ring either loudly or softly at any minute of the hour and this accuracy is made possible by the illustration shows the alarm set man can be reminded of an appointment, and the cook can boil eggs to alarm clock, which is as exact and as England conscience. Price \$3.50.

FOOD OR TARDINESS.—The made by Yankee Wizard Clock is an alarm clock that can be according to need. It will alarm at any hour out of the twelve the movable rim around the face, to ring in nine minutes. The office man; the commuter can catch his exactly the right degree by aid of this relentless in its reminding as a New

A SAFETY-FIRST ELECTRIC CLOTHES WASHER.—The Thor Electric Home Washing Machine No. 25, made by the Hurley Machine Company, New York and Chicago. This electric washer is warranted to overcome what had hitherto been the defects in such machines. It is provided with a protective device which automatically prevents the motor being overloaded or burned out, and its reversible 11-inch roll winder is equipped with a safety guard. The machine itself is built on the reversing cylinder principle, the cylinder containing the clothes being revolved first in one direction and then in the other, so that the suds are flushed back and forth through the fabric, thoroughly cleansing it. Tests have proven that the machine is simple to use, requires no attention after starting and produces excellent results at a cost of 1 1/2 to 2 cents an hour for electricity. Price \$90.

A PROTECTIVE CONTAINER FOR WOOLLY AND FURRY GARMENTS.—White Tar Moth Bags, made by the White Tar Company, 103 John St., New York, seem to be the last word in preparedness against the moths and dust that corrupt the furs and woolen goods which weigh so heavily on the housewife's mind each spring. The garments may be hung up inside and the whole bag hermetically sealed against air, dust and insects. The bags are made in four sizes, ranging from 24 to 30 inches wide and 37 to 70 inches long, and there are four varieties, Fine Tar, Cedar, Lavender and Odorous. The prices range from 50 cents to \$2.00.

How Fast Does Your Ice Melt?

This question, not the first cost, determines the real expense of your refrigerator.

There are two definite reasons to account for the fact that the

BOHN SYPHON REFRIGERATOR

holds ice consumption to the minimum. The Siphon System of rapidly circulating pure, cold, dry air, and an insulation that provides the highest standard of heat resistance ever attained, combine to hold the temperature in a Bohn refrigerator at 40°; ice melts very slowly at this low temperature.

The walls of this Refrigerator have, in addition to the outer and inner cases and Porcelain Enamel lining, 7 heat-resisting layers, including two of "Flaxinum," the exclusive Bohn insulating material, the most effective lining ever put into a refrigerator.

The Bohn Siphon is installed in practically every dining and refrigerator car in use to-day. The car builders know.

The style illustrated above, Model No. 43, 39x22x50 inches, 125 lbs. ice capacity, is our most popular model. Regular list price, \$64.00; now, specially priced at \$48.00.

The many other styles are also marked at attractive prices. There are Porcelain Lined Bohn Refrigerators from \$16.50 up. Call and see our large line, in both wood and white porcelain exteriors. If you cannot call, write for our handsome catalog. We are the manufacturers, not middlemen.

The Nestle Permanent Hair-Wave

THE pleasure of your Summer can be enhanced by a freedom from worry over the condition of your hair. Before you leave the city have your hair Nestlé Waved.

Nestlé Waved, and, no matter what the climate, you may be assured of delightfully wavy hair for the entire Summer.

Mr. Nestle was the original inventor of permanent waving, and over 50,000 heads of hair have been waved by him and his staff.

The process is comfortable and quick and involves absolutely no risk of injuring the hair in any way. About two hours are needed for the treatment, including the two required shampoos, and no fee is taken unless the test shampoo after the treatment reveals perfect success.

Mr. Nestle is in personal attendance in New York and supervises all work. Apply for illustrated and descriptive booklet.
